Historia 3 Sosenski Sosenski Correa, Susana Luisa,Plá Pérez, Sebastián,2021-06-15 Esta serie fundamenta su propuesta didáctica en una visión integral de la educación, en la que los estudiantes son actores primordiales de los procesos de aprendizaje. Asimismo, parte de una idea de historia que interrelaciona elementos políticos, económicos, culturales y sociales, y busca estrechar los vínculos entre la escuela y la comunidad escolar. La serie cumple con el enfoque humanista y el enfoque de la asignatura. A través de la sección ?Historia de las sensibilidades? se ofrece una manera novedosa de vincular la historia y el desarrollo de las habilidades socioemocionales. Las actividades sugeridas están íntimamente relacionadas con el desarrollo de las habilidades de búsqueda de información en internet, pero sobre todo, para el desarrollo de habilidades de producción de conocimiento histórico a partir del uso de tecnologías de la información y la comunicación. Los mecanismos de evaluación propuestos responden al enfoque formativo de la enseñanza de la historia: autoevaluación, coevaluación e incluso heteroevaluación.

Las manos indígenas de la raza española Johanna Lozoya,2010 Innovative texts that preset a new perspective on the categorization of Mexican architecture, generally classified as neocolonial or neoindian. The author' point of view is that there is no mestiza architecture in the considered terms, but spaces subject to the perception of the cultural imaginary of mestizaje. The mestizaje as a nationalistic architectonic argument is a topic practically unexplored in cultural terms in the historiography of the discipline. I initiate my own reflection standing on the historiography alleys in which the political-ideological and aesthetic histories prevail.
