**Mothers and Daughters** Alice H. Deakins, Rebecca Bryant Lockridge, Helen M. Sterk, 2012-06-21 Family stories of the ties between mothers and daughters form the foundation of *Mothers and Daughters: Complicated Connections Across Cultures*. Nationally and internationally known feminist scholars frame, analyze, and explore mother-daughter bonds in this collection of essays. Cultures from around the world are mined for insights which reveal historical, generational, ethnic, political, religious, and social class differences. This book focuses on the tenacity of the connection between mothers and daughters, impediments to a strong connection, and practices of good communication. *Mothers and Daughters* will interest those studying communication, women's studies, psychology, sociology, anthropology, counseling, and cultural studies.

**Mothers Are Precious Keys of Life** Beverly R. Wilson, 2012-06 In 2011, when I left the corporate banking industry, I decided to write a memoir, detailing true story events that took place in mines as well as in my family's life both back home in Pittsburgh, Pennsylvania, and here in Birmingham, Alabama. With the help of God our father, who gave me the courage and the strength to complete this novel, *Mothers Are Precious Keys of Life*. As a business entrepreneur, I plan on introducing a new line of copyright products from my book title, such as a line of T-shirts and home plaques that my customers can purchase personally from me. You can look me up on my Facebook page under Ms. Beverly R. Wilson for a request for products or e-mail me at [www.bevwoo44@att.net](mailto:www.bevwoo44@att.net) for more details on my future online store. I hope my readers will all be touched by these inspirational stories.

**My Child, the Algorithm** Hannah Silva, 2024-08-27 Hannah Silva's *My Child, the Algorithm*, is one of the best books I read this year. Merging the cozy familiarity of child-rearing with the mysterious tension of AI {...}, she has created a new genre of personal narrative, and a story whose grief, hope and curiosity takes on poetic, spiritual dimensions, even when exploring the most common chambers of the human heart. —Michelle Tea, author, *Knocking Myself Up* *My Child, the Algorithm* tells a story of finding joy after betrayal. Like a male seahorse, Hannah Silva carried a baby made from her partner's egg. But when she gave birth, her partner left, and Hannah found herself navigating life alone with her child. Hannah started playing with a precursor to ChatGPT—wondering what AI could tell us about love. To her surprise, she was moved by the results. The algorithm prompted Hannah to share her explorations of dating, sex, friendship, and life as a queer parent in London. With the help and disruption of two unreliable narrators, a toddler and an algorithm, Hannah deconstructs her story, unraveling everything she has been taught to want, and finds alternative ways of thinking, loving, and parenting today.

Gendered Morality Zahra M. S. Ayubi, 2019-07-30 Islamic scriptural sources offer potentially radical notions of equality. Yet medieval Islamic philosophers chose to establish a hierarchical, male-centered virtue ethics. In *Gendered Morality*, Zahra Ayubi rethinks the tradition of Islamic philosophical ethics from a feminist critical perspective. She calls for a philosophical turn in the study of gender in Islam based on resources for gender equality that are unlocked by feminist engagement with the Islamic ethical tradition. Developing a lens for a feminist philosophy of Islam, Ayubi analyzes constructions of masculinity, femininity, and gender relations in classic works of philosophical ethics. In close readings of foundational texts by Abu Hamid Muhammad al-Ghazali, Nasir-ad Din Tusi, and Jalal ad-Din Davani, she interrogates how these thinkers conceive of the ethical human being as an elite male within a hierarchical cosmology built on the exclusion of women and nonelites. Yet in the course of prescribing ethical behavior, the ethicists speak of complex gendered and human relations that contradict their hierarchies. Their metaphysical premises about the nature of the divine, humanity, and moral responsibility indicate a potential egalitarian core. *Gendered Morality* offers a vital and disruptive new perspective on patriarchal Islamic ethics and metaphysics, showing the ways in which the philosophical tradition can support the aims of gender justice and human flourishing.

A Mother's Love Adams Media, 2017-02-07 This stunning, four-color designed book highlights more than 400 quotes about motherhood, from poetry, meditations, proverbs, and more. "Motherhood: all love begins and ends there." —Robert Browning The relationship between a mother and her child is rich with emotion. It is wholly unique, yet completely universal. From Balzac describing the depth of love in his mother's heart to Kate Winslet reflecting on the new perspective motherhood provides, these voices soar when describing the profound influence a mother can have. Featuring quotes by and from

mothers, including Louisa May Alcott, Maya Angelou, Mark Twain, and J.K. Rowling, *A Mother's Love* is the perfect gift for the most important woman in all of our lives.

**Unleashing Our Unknown Selves** France Morrow, 1991 *Unleashing Our Unknown Selves* begins with a critique of central paradigms in contemporary social science and ends with a provocative new theory of psychosexual development. Dr. Morrow brilliantly demonstrates why men are just as damaged as women by our present patriarchal sex/gender system. . . . I highly recommend [it] as a primary text for graduate courses in human development, psychology of gender, and cultural studies. Joseph L. White, Professor of Psychology, Psychiatry and Comparative Culture, University of California, Irvine

Described as a hopeful book, *Unleashing Our Unknown Selves* presents a new theory of psychosexual development and, concurrently, of psychosocial evolution. France Morrow claims that the sexual division of nature was a primordial organizing principle for all cultures. However, evolving qualities and psychological characteristics have been assigned by culture to women and men. Real biological differences have, over millennia, been incorporated, absorbed, or superceded by cultural differences. The resultant schism between femininity and masculinity represents the deepest cleavage in the human species, crippling both men and women through the cultural subordination of women. Morrow believes that to be truly whole, both sexes must be allowed to release the repressed qualities of the opposite sex. France Morrow's interdisciplinary focus finds hope in the explanatory power of a theory which systematically explores the crippling of both sexes by the cultural invisibility of women. The book's chapters explore, among other subjects, the structure of gender evolution, Sigmund Freud's impact on the future of femininity and masculinity, and the internal repression of the majority self. Morrow's study affirms the dependence of human survival on the integrating of our feminine selves with our masculine selves. Her work is particularly directed to courses in developmental and social psychology, gender studies, sociology, and women's studies.

**Mother's Love Is . . .** Mina Parker, 2022-07-22 A powerful book of motherhood quotes dedicated to the loving role that moms play in their children's lives from the author of *365 Excuse Me . . .* While it's difficult to truly capture the weight and power of a mother's love, this book by author Mina Parker comes close. Thanks to the astonishing results it provides—glowing skin, a flatter stomach, enhanced immunity, and full-body detox—the practice of manually stimulating the lymphatic system has become one of the most popular wellness practices today.
