**Aprendizaje o dogma en políticas públicas** Silverio González Téllez, 1999 La principal tesis que sostiene este trabajo es la siguiente; la participación es un concepto importante en el ideario del desarrollo de la modernización, asociado al propósito fundamental de la integración social. La participación, entendida como parte de los esfuerzos de la modernización, ha fracasado en integrar más a la sociedad al proceso económico y democrático. Plantea que ello se debe a que la

participación se ha concretado como instrumento de justificación de las políticas oficiales, y de cooptación de esfuerzos y trabajo popular, en programas definidos casi totalmente por las agencias gubernamentales. Para llevar adelante su interpretación, el autor debate, en el primer capítulo, como apoyo en la sociología contemporánea, la relación entre modernidad y modernización y sus efectos en los procesos de integración social. Examina las tensiones entre la heterogeneidad cultural de las sociedades y la homogeneización cultural forzada de la modernización. Asimismo presenta un primer ...

**Bejkaariwa'a. Propuesta de un modelo de salud intercultural del pueblo ette ennaka** Deibys Carrasquilla Baza, my Shilena Torres Villalobos, Celenny Pérez Quintero, Gabriel Jaime Parra Henao, Gisela Esther González Ruiz, Piedad Agudelo Flórez, Alfonso Campo, 2024-04-12 Colombia, como país multiétnico y pluricultural, tiene como reto incluir en todas las facetas de la vida de su población el reconocimiento de la diversidad. Pero si bien se cumplen 30 años de la Constitución Política del 1991, llevar a la práctica tal sueño es un trabajo que todavía se sigue haciendo. Este libro, por tanto, está encaminado en esa vía, porque presenta la propuesta de un modelo de salud intercultural para el pueblo ette ennaka con el que busca señalar su camino de bienestar físico, espiritual y emocional. La investigación surgió como respuesta a la poca información de la situación en salud de los pueblos indígenas y, sobre todo, para plantear alternativas de combinación de saberes. La investigación contó con la financiación de Minciencias, a través de la convocatoria 744. Se estableció una alianza interinstitucional, con diferentes grupos de investigación y la participación de miembros del pueblo ette. La metodología fue mixta, por tanto, combinó la mirada epidemiológica en la parte cuantitativa, con el enfoque etnográfico de la cualitativa. Se desarrolló entre 2017 y 2019, a través de observación directa en campo, fuentes documentales, censo, encuestas, autopsia verbal, entrevistas y registro audiovisual. La propuesta se centra en el cuidado basado en la cultura y enfatiza, a lo largo de los capítulos, en la importancia de lo social y cultural, en los procesos de salud-enfermedad. De igual forma, detalla particularidades de los ette, desde su historia, costumbres, espiritualidad, alimentación y cuidadores. También, explora el territorio y sus características, para luego aterrizar en el análisis de la situación en salud. Al final, propone estrategias que señalan problemas y soluciones, en los que la participación, la educación intercultural y la negociación de los cuidados se proponen como elementos transversales y decisivos en el momento de comenzar a consolidar culturas de la salud.
