**Essential Quotes for Scientists and Engineers** Konstantin K. Likharev, 2021-02-27 This book brings together about 2,500 quotations on various topics of interest to scientists and engineers, including students of STEM disciplines. Careful curation of the material by the editor provides the reader with far greater value than can be obtained by searching the internet. The quotes have been selected for various attributes including: importance of topic, depth of insight, and - not least - wit, with many of them satisfying all these criteria. To make sequential reading of the quotes more engaging, they are grouped into broad topical sections, and the entries within each section are organized thematically, forming quasi-continuous narrative threads. The text and authorship of each quote have been carefully verified, and the most popular cases of misquotation and misattribution are noted. The book represents a valuable resource for those writing science and engineering articles as well as being a joy to read in its own right.

**Beyond the Microscope** Harold Lerch, 2025-10-28 Scientists study many organisms and inorganic matter, too small for the naked eye, under the microscope in search of understanding the origin of the Universe. Large telescopes allow them to explore stellar objects at great distances. These tools are essential to the advanced science being done in the twenty-first century. A sizable number of scientists use the microscope for evidence of Special Creation, and others seek evidence of evolution. But the most important work is done *Beyond the Microscope*. That is, in analyzing data in the correct light and to learn how it fits their “religion” of creation or evolution. This book attempts to show that creation is a faith the facts fit, and evolution is a faith the facts fail.

*They Never Said It : A Book of Fake Quotes, Misquotes, and Misleading Attributions* Paul F. Boller Jr. Emeritus Professor of History Texas Christian University, Oklahoma John George Jr. Professor of Political Science and Sociology Central State University, 1989-05-18 Abraham Lincoln never said, You cannot fool all the people all the time. Thomas Jefferson never said, That government is best which governs least. And Horace Greeley never said, Go west, young man. In *They Never Said It*, Paul Boller, Jr., and John George examine hundreds of misquotations, incorrect attributions, and blatant fabrications, outlining the origins of the quotes and revealing why they should be consigned to the historical trashcan. Many of the misquotes are quite harmless. Some are inadvertent misquotes that have become popular (Shakespeare actually said, The best part of valor is discretion), others, the inventions of reporters embellishing a story (Franklin Roosevelt never opened a

speech to a DAR group with the salutation, My fellow immigrants). But some of the quotes, such as Charles Darwin's supposed deathbed recantation of evolution, are blatantly dishonest and falsify the historical record. And others are chillingly vicious, filled with virulent racial and religious prejudices that completely distort the views of the person supposedly quoted and spread distrust and hatred among the gullible. These include the forged remarks attributed to Benjamin Franklin that Jews should be excluded from America, and the fabricated condemnation of Catholics attributed to Lincoln. An entertaining and yet thought-provoking book, *They Never Said It* sorts out a great deal of history and sets it right, going beyond a mere catalog of popular misconceptions to reveal how conservatives and liberals, atheists and evangelists, all have at times twisted and even invented the words of eminent figures to promote their own ends. It is the ultimate debunking reference, a perfect complement to handbooks of quotations.

And I Quote, Revised Edition Ashton Applewhite, Tripp Evans, Andrew Frothingham, 2003-03-19 The popular guide to quotable quotes returns in a totally revised and updated edition including all-new material.

*Collective Leader Efficacy* Peter M. DeWitt,2021-09-16 Not just another book on leadership teams For school teams to succeed, they need leadership, independence, meaningful collaboration, and a shared conviction that they have real power to enact actual change. Readers will find: Activities and strategies designed to build collective efficacy in instructional teams and foster leadership and interdependence among teachers Theories of action to focus team efforts and how to create your own Tools, reflection prompts, and guiding questions to help you define your desired outcomes and the steps necessary to get there With this book and the research within it, your instructional leadership team will develop a learner's mindset, a collective commitment to improvement, and a shared process for inquiry and continual growth so you can nurture greater impact together.

*The Frontier World of Doc Holliday, Faro Dealer from Dallas to Deadwood* Patricia Jahns,1979 Eaten by tuberculosis, sustained by alcohol, John Henry Doc Holliday walked the streets of Dodge City, Dallas, Denver, Leadville, Deadwood, and Tombstone in their roistering heydays. The frail-looking dentist could be deadly when the drink wore off and someone crossed him. Doc Holliday was a paradox: respectable citizen and notorious gambler, gentleman and murderer, married to a

prostitute called Big-Nosed Kate but devoted only to the memory of his mother. Pat Jahns includes a full and exciting account of the shootout at the O.K. Corral.

**Nullifying God** H. Robert Wilson Ph.D.,2018-01-01 Evolution and Creation are in a spiritual battle. Evolution scientists ignore, dismiss, and unequivocally reject Creation out of hand—"It is not science or fact as evolution is," they say. However, Nullifying God shows that random Darwinian evolution does not have the direct evidence required to support the claim. Not only that, but it provides contrary evidence that evolution is biologically impossible. Because that is the case, evolution can only persist in the unchallengeable authority it needs to maintain its position by actively attempting to nullify its alternative—Creation, and therefore, the Bible and God. Nullifying God was especially written to empower and benefit believers who are not familiar with science to show them that evolution cannot be fact and is not science. It does so by: 1) providing them with a core foundation of applied science principles to rationally question evolution's claims, then 2) guiding them into solid, clear knowledge of why evolution is biologically impossible, and finally 3) presenting them with examples that document evolution's attempts to nullify God. The bottom line is—Biblical Creation is the only answer that explains life.
