

# Someday My Prince Will Come Piano

**Katrin Zwirgmaier**

## **History and Tradition of Jazz** Thomas E. Larson, Tom Larson, 2002

Chasin the Trane J.C. Thomas, 2012-06-06 He was always elusive, on and off the stand; like his music, he was constantly moving, incessantly changing. Just as Charlie Parker stood astride the jazz world of the late 40s and 50s, so did John Coltrane in the late 50s and 60s. Trane was a giant of the saxophone and a major composer. His music also influenced rock and classical musicians, such as Roger McGuinn and David Amram. Yet he was more than a musician; there was a mystical quality, a profound melancholy that emanated from this quiet, self-contained man and moved listeners, some of whom knew little of music but heard something beyond music's boundaries from the sounds his saxophone created. Many even had their lives changed as a result. J. C. Thomas traces John Coltrane's life and career from his North Carolina childhood through his apprenticeship under Dizzy Gillespie, Thelonious Monk, and Miles Davis, culminating in the saxophonist's classic quartet that played to steadily increasing audiences throughout America, England, and Japan. The author has drawn on the recollections of those who knew Coltrane best—boyhood friends, band members like Elvin Jones, spiritual mentors like Ravi Shankar, and the women who loved him. Chasin' The Trane is the story of a man who struggled against drug addiction, studied African and Eastern music and philosophy, admired Einstein's expanding universe and the shimmering sounds a harp makes, and left behind the enduring legacy of a master musician who was also a beautiful man.

**Got Live Album If You Want It!** Avram Mednick, 2013-11-13 This is Avram Mednick's third non-fiction book about music. Go figure, since his best instrument is the radio. This one is about live albums, one hundred of which he discusses. He seems to be stuck on that number.

The ^AJazz Standards Ted Gioia, 2012-07-06 Ted Gioia's first new jazz book since *The History of Jazz*, *The Jazz Standards: A Guide to the Repertoire*, is a comprehensive handbook to the 250 most important jazz compositions. The book highlights the most popular jazz standards, tells their story, explains their role in jazz, and serves as a gateway to the historic recordings that made these compositions into the foundations of the art form. The selected standards includes tunes from Broadway shows, written by the great American songwriters; pieces that first appeared in movies or were originated by big bands, or by pop singers outside the jazz world; and, of course, works written by jazz musicians themselves. A unique resource, a browser's companion, and an invaluable introduction to the art form, *The Jazz Standards* suits the needs of new

fans, jazz lovers, musicians, and students alike.

**Jazz Matters** David Ake, 2010-10-07 What, where, and when is jazz? To most of us jazz means small combos, made up mostly of men, performing improvisationally in urban club venues. But jazz has been through many changes in the decades since World War II, emerging in unexpected places and incorporating a wide range of new styles. In this engrossing new book, David Ake expands on the discussion he began in *Jazz Cultures*, lending his engaging, thoughtful, and stimulating perspective to post-1940s jazz. Ake investigates such issues as improvisational analysis, pedagogy, American exceptionalism, and sense of place in jazz. He uses provocative case studies to illustrate how some of the values ascribed to the postwar jazz culture are reflected in and fundamentally shaped by aspects of sound, location, and time.
