Parental Engagement and Early Childhood Education Around the World Susanne Garvis, Sivanes Phillipson, Heidi Harju-Luukkainen, Alicja Renata Sadownik, 2021-12-23 Exploring the importance of parental engagement in early childhood education, this book delves into research and practices in 25 countries to bring students, researchers, teachers and policy-makers insights into working families around the world. The incorporation and consideration of parental engagement and involvement in early childhood education are a new phenomenon to many countries. Yet, increasing research recognises the importance of parental engagement and involvement in early childhood education services, and the role both parents and teachers play to support children's learning and development. Using a range of materials from curriculum to policy documents, Garvis et al. demonstrate differences in practices and terminologies pertaining to the topic and provide an international perspective on the importance of parental involvement and engagement in early childhood education services. The content covers a range of countries as well as countries beyond an 'Anglo-Saxon' perspective. The different policy settings across these countries highlight how countries work with, and involve, parents differently, which is useful for jurisdictions where early childhood education is a developing aspect of a country's education system. Looking at cultural influences, partnership approaches, parental collaboration, institutional dominance and child involvement in parent meetings, the content offers readers real understanding of parental engagement and involvement in different settings. The readership includes students in early childhood education, and researchers, teachers, policy makers, and general members of the public interested in parental engagement or involvement in early childhood education across the globe.

International Perspectives on Early Childhood Education and Care Susanne Garvis, Sivanes Phillipson, Heidi Harju-Luukkainen, 2018-01-12 The first volume in this Early Childhood Education and Care in the 21st Century: International Teaching, Family and Policy Perspectives miniseries provides a snapshot of early childhood education and care from 19 different countries around the world. The intention is to provide a description for the policy and provision for young children and their families in each of the unique contemporary contexts. The selection of countries includes every continent in the world to provide variety across cultures, socio-economic status, location, population and other unique factors. Some chapters also share the development and history of early childhood in their country, including economic and political transitions that lead to changes in early childhood provision and policy. The book provides essential takeaways for early childhood educators,

researchers, early childhood organisations, policy makers and those interested to know more about early childhood education within an international perspective.
