The Power of Habit Charles Duhigg, 2012-02-28 NEW YORK TIMES BESTSELLER • MORE THAN 3 MILLION COPIES SOLD • This instant classic explores how we can change our lives by changing our habits. “Few [books] become essential manuals for business and living. *The Power of Habit* is an exception.”—Financial Times A WALL STREET JOURNAL AND FINANCIAL TIMES BEST BOOK OF THE YEAR In *The Power of Habit*, award-winning business reporter Charles Duhigg takes us to the thrilling edge of scientific discoveries that explain why habits exist and how they can be changed. Distilling vast amounts of information into engrossing narratives that take us from the boardrooms of Procter & Gamble to the sidelines of the NFL to the front lines of the civil rights movement, Duhigg presents a whole new understanding of human nature and its potential. At its core, *The Power of Habit* contains an exhilarating argument: The key to exercising regularly, losing weight, being more productive, and achieving success is understanding how habits work. As Duhigg shows, by harnessing this new science, we can transform our businesses, our communities, and our lives. With a new Afterword by the author

The Power of Habit Charles Duhigg, 2012-02-28 Groundbreaking new research shows that by grabbing hold of the three-step loop all habits form in our brains—cue, routine, reward—we can change them, giving us the power to take control over our lives. We are what we repeatedly do, said Aristotle. Excellence, then, is not an act, but a habit. On the most basic level, a habit is a simple neurological loop: there is a cue (my mouth feels gross), a routine (hello, Crest), and a reward (ahhh, minty fresh). Understanding this loop is the key to exercising regularly or becoming more productive at work or tapping into reserves of creativity. Marketers, too, are learning how to exploit these loops to boost sales; CEOs and coaches are using them to change how employees work and athletes compete. As this book shows, tweaking even one habit, as long as it's the right one, can have staggering effects. In *The Power of Habit*, award-winning New York Times business reporter Charles Duhigg takes readers inside labs where brain scans record habits as they flourish and die; classrooms in which students learn to boost their willpower; and boardrooms where executives dream up products that tug on our deepest habitual urges. Full of compelling narratives that will appeal to fans of Michael Lewis, Jonah Lehrer, and Chip and Dan Heath, *The Power of Habit* contains an exhilarating argument: our most basic actions are not the product of well-considered decision making, but of habits we often do not realize exist. By harnessing this new science, we can transform our lives.

Once we understand how habits are formed and how they work, we can learn how to change them. This book is divided into three parts. The first part focuses on the habits of individuals. In this section, DuHigg explains the habit loop and how habits work. A habit loop is made up of a cue or trigger, a routine, and a reward. DuHigg's examples show us how once habits are lodged in our brain, they influence how we act—often without our realizing it. Advertisers take advantage of our habits to convince us to buy their products. Advertisers know that cravings are what drive the habit loop from the cue to the routine to the reward and back again. Advertisers use the craving for a reward in a habit loop to drive consumer use of their products. The cue drives the routine out of a desire for the reward. 3. Habit change is most successful when the cue and reward remain the same, but the routine changes. Another force behind successful habit change is belief in the ability to change the habit. 4. Summary of the Power of Habit: Why We Do What We Do in Life and Business, by Charles Duhigg Sapiens Editorial,2017-05-27 ORIGINAL BOOK DESCRIPTION The Power of Habit is highlighting an important role of habits and their necessity in our lives. Some of these habits you are already aware of, such brushing our teeth, smoking, exercising, but did you know how exactly those habits are formed? This book is the result of a tremendous research consisting of academic studies and interviews with scientists and executives. Our choices of deliberately making every day some things are part of these habits that we continue doing even though we are not thinking of doing. After a while, we stop focusing on what we are doing, thus, we stop making a choice. This could only mean that our behavior becomes automatic, as a natural consequence of our mind. -ABOUT SAPIENS EDITORIAL Books are mentors. Books can guide what we do and our lives. Many of us love books while reading them and maybe they will echo with us a few weeks after but 2 years later we can't remember if we have read it or not. And that's a shame. We remember that at that time, the book meant a lot to us. Why is it that 2 years later we have forgotten everything? That's not good. This summary is taken from the most important themes of the original book. Most people don't like books. People just want to know what the book says they have to do. If you trust the source you don't need the arguments. So much of a book is arguing its points, but often you don't need the argument if you trust the source you can just get the point. This summary takes the effort to distill the blahs into themes for the people who are just not going to read the whole book. All this information is in the original book.
