**Scott C. Dulebohn**

Conspiracy as Genre Catherine Tebaldi, Alistair Plum, Christoph Purschke, 2025-09-18 From anti-vaccine politics to aliens, this volume explores diverse critical approaches to conspiracy narratives representing them as playful stories with serious ideologies and effects. It examines conspiracy in relation to social power and authority, moving beyond either disinformation or revelation. In addition, it looks at how the genre of conspiracy is the performance of questioning authority to produce new forms of expertise which frequently stabilize existing power hierarchies. Across three parts, the book theorizes how conspiracy narratives are told, what they do in the social world, and how they circulate these social meanings. Part One offers semiotic and narrative analyses of the language of conspiracy as a genre. Part Two examines the social effects of these narratives, arguing that elite conspiracy is a means to stabilize social power, looking in particular at gender-related conspiracies around feminism, abortion and trans rights. Part Three considers the circulation of conspiracies and the ideologies they narrate, using unique mixed methods approaches to look at multilingual data in sites and communities in Brazil, Germany, and the USA.

**Identity Politics** Nils Holtug, 2025-03-12 According to a common narrative, identity politics derives from leftist postmodernism, and is antithetical to both liberalism and Enlightenment universalism. This narrative, however, is false. Identity politics is propagated not only by the left but also by the right-and it is not tied to postmodernism. Various forms of identity politics are, in fact, quite compatible with liberalism and Enlightenment values. Based on a liberal egalitarian framework, Nils Holtug argues that some forms of identity politics are well worth pursuing, while others should clearly be resisted. Among other things, identity politics can serve to increase the opportunities of worse off, marginalized groups. In this book, Holtug considers and assesses specific identity policies, including affirmative action for African Americans, opposition to the n-word and blackfacing, and the backlash against cultural appropriation and out-group representation in art. Identity Politics surveys various forms of 'cancel culture', such as no platforming and the pulling down of statues depicting morally compromised historical figures. Holtug also scrutinizes instances that are more specific to the political right, including white supremacism and ethnopluralism. Finally, he considers the suggestion that identity politics is divisive and drives down social solidarity, arguing that while some forms of identity politics do indeed drive down solidarity, this is less clear in the case of the minority-accommodating policies.

**Violent Extremism** Amir Rostami, Christofer Edling, 2024-07-15 Violent Extremism: A Nordic Outlook illuminates the global issue of violent extremism, with a particular focus on Sweden and the Nordic countries. This concise volume leverages empirical research to uncover the mechanisms and dynamics driving violent extremism, setting itself apart in a field often criticized for a lack of data-driven analysis. The contributors employ unique Nordic data to offer insights on violent extremism, examining its organization, the evolution of extremist groups, online presence, and societal impact. Aimed at fostering a deeper understanding of the complexities of violent extremism, the contributions draw on several social science perspectives to enhance prevention and intervention strategies. This approach not only enriches our grasp of extremist organizations and individual paths in to or out of extremism but informs effective counter measures. Essential reading for policymakers, researchers, and security professionals, this volume offers practical, empirical insights on tackling a pressing challenge in societies around the globe.

**Population Levels, Trends, and Differentials** Joseph Chamie, 2023-01-01 This book is a broad collection of short and concise chapters addressing important issues relating to population levels, trends, and differentials. In addition to traditional population concerns, such as growth, composition, fertility, mortality, and migration, the articles address a broad range of related issues, including climate change, environmental degradation, socio-economic development, and policy development. The articles are concise, focused on specific issues, and presented in a style that avoids technical jargon and is easily understood by a broad range of readers. The articles are not only aimed at conveying population information, but also providing important messages for informed policy formulation and program implementation. Among the many issues addressed are human rights, laws, women, gender, climate change, COVID-19 pandemic, ageing, retirement, and abortion. Written in an accessible way, the book will appeal to many general readers wishing to know more about population issues.

**Transnational Anti-Gender Politics** Aiko Holvikivi, Billy Holzberg, Tomás Ojeda, 2024-06-08 In recent years, attacks on the rise of 'gender ideology' and 'genderism' as a political force, on gender studies as an academic field, and on feminist, queer and trans individuals seen to be their embodied representatives, have grown in scope and intensity. This edited volume understands such attacks as a global force in need of urgent analytical and political attention. Drawing on contributions from and about a varied range of geographical locations including Argentina, Chile, China, Germany, the Persian Gulf, Hungary, India, Pakistan, Peru, South Africa, Spain, Turkey, Uganda, the UK and the US, this book explores how anti-gender mobilisations work as a transnational formation shaped by the legacies of colonialism, racial capitalism, and resurgent nationalisms and how these can be resisted. By transnationalising our inquiries into the epistemic, affective and political nature of the anti-gender phenomenon, this volume troubles the 'origin stories' we tell about where anti-gender politics come from, and helps to better locate the various sources, actors, and networks behind these attacks, contesting the notion that anti-gender politics derive solely from right-wing nationalist or conservative religious actors, to show how they also derive

from more centrist, liberal, leftist and even presumably feminist positions. The book thus invites us to sharpen and rethink the conceptual vocabularies and strategies we use to understand and resist anti-gender attacks, opening up space for envisioning new political imaginaries and transnational feminist solidarities. **Facts & Furious** Ben Shapiro, 2024-07-10 The facts speak for themselves. Under Democratic control, America has devolved into a battleground for culture wars, corruption and criminal insanity. For the left, conservatism is more of a threat to America than terrorism. Silencing a former president is more important than reinforcing our borders. Religion is dangerous, but drag queen story hour is A-OK. After ushering countless attacks on American morality, the left then points the finger at hardworking Americans who try to pick up the pieces. Where's the "equity" and "inclusion" among all this "diversity"? In this collection of columns, Ben Shapiro runs the gamut on the political dumpster fire that has been burning since Joe Biden became president. An ultimate guide of the most important moments in American politics since 2022, Shapiro's incisive commentary cuts through the mud being slung by either political party. The 2024 presidential election will mark a turning point for America. We will either choose the right way forward, or we will turn left down a dark path of destruction.

*Europe: Continent of Conspiracies* Andreas Önnarfors, André Krouwel, 2021-04-29 This edited volume investigates for the first time the impact of conspiracy theories upon the understanding of Europe as a geopolitical entity as well as an imagined political and cultural space. Focusing on recent developments, the individual chapters explore a range of conspiratorial positions related to Europe. In the current climate of fear and threat, new and old imaginaries of conspiracies such as Islamophobia and anti-Semitism have been mobilised. A dystopian or even apocalyptic image of Europe in terminal decline is evoked in Eastern European and particularly by Russian pro-Kremlin media, while the EU emerges as a screen upon which several narratives of conspiracy are projected trans-nationally, ranging from the Greek debt crisis to migration, Brexit and the COVID-19 pandemic. The methodological perspectives applied in this volume range from qualitative discourse and media analysis to quantitative social-psychological approaches, and there are a number of national and transnational case studies. This book will be of great interest to students and researchers of extremism, conspiracy theories and European politics.

**Who Is Antiracist?** George Yancey, Hayoung Oh, 2024-12-20 This book proposes an index to measure survey respondents' level of agreement with antiracist principles, as defined in popular literature. It then observes the characteristics and beliefs of those with high levels of agreement and concludes that the movement runs the risk of becoming too partisan to appeal to new audiences--
