The Philosophy of Martin Scorsese Mark Conard, 2007-05-31 Academy Award-winning director Martin Scorsese is one of the most significant American filmmakers in the history of cinema. Although best known for his movies about gangsters and violence, such as Mean Streets, Goodfellas, Casino, and Taxi Driver, Scorsese has addressed a much wider range of themes and topics in the four decades of his career. In The Philosophy of Martin Scorsese, an impressive cast of contributors explores the complex themes and philosophical underpinnings of Martin Scorsese's films. The essays concerning Scorsese's

films about crime and violence investigate the nature of friendship, the ethics of vigilantism, and the nature of unhappiness. The authors delve deeply into the minds of Scorsese's tortured characters and explore how the men and women he depicts grapple with moral codes and their emotions. Several of the essays explore specific themes in individual films. The authors describe how Scorsese addresses the nuances of social mores and values in *The Age of Innocence*, the nature of temptation and self-sacrifice in *The Last Temptation of Christ* and *Bringing Out the Dead*, and the complexities of innovation and ambition in *The Aviator*. Other chapters in the collection examine larger philosophical questions. In a world where everything can be interpreted as meaningful, Scorsese at times uses his films to teach audiences about the meaning in life beyond the everyday world depicted in the cinema. For example, his films touching on religious subjects, such as *Kundun* and *The Last Temptation of Christ*, allow the director to explore spiritualism and peaceful ways of responding to the chaos in the world. Filled with penetrating insights on Scorsese's body of work, *The Philosophy of Martin Scorsese* shows the director engaging with many of the most basic questions about our humanity and how we relate to one another in a complex world.

The Age of Innocence Edith Wharton, 2025-05-14 *The Age of Innocence* by Edith Wharton is a profound exploration of the intricacies of social mores and personal desires, set in the upper echelons of New York society during the 1870s. The novel follows Newland Archer, a young lawyer engaged to the beautiful and conventional May Welland. However, Newland's world is upended when he encounters May's cousin, the enigmatic Ellen Olenska, who has returned to New York after a scandalous divorce from her European husband. Wharton masterfully portrays the tension between individual aspirations and societal expectations, illustrating the constraints imposed by a rigid social structure. Newland, initially enamored by the prospect of a stable and respectable life with May, finds himself increasingly drawn to Ellen's free spirit and unconventional lifestyle. As he grapples with his feelings, the narrative delves into themes of love, duty, and the sacrifices required to conform to societal norms. The novel paints a vivid picture of the opulence and hypocrisy of high society, revealing how appearances often mask deeper emotional truths. Wharton's keen observations highlight not only the beauty of New York's elite but also the suffocating nature of its customs. Newland's internal conflict serves as a microcosm of the struggle between tradition and change, illustrating the challenges faced by those who dare to defy convention. As the story progresses, Newland becomes increasingly aware of the limitations imposed by his social class. His relationship with Ellen awakens a longing for authenticity and passion, prompting him to question the values he has been taught to uphold. Yet, the weight of societal expectations looms large, forcing him to confront the sacrifices that come with pursuing true happiness. *The Age of Innocence* is a poignant commentary on the complexities of love and the high price of societal conformity. Wharton masterfully weaves a tale that resonates with the universal struggle for identity and fulfillment, making it a timeless work that continues to captivate readers. Through Newland's journey, the novel invites us to reflect on our own choices and the often conflicting desires for personal freedom and social acceptance. Wharton's elegant prose and nuanced characterizations

ensure that this exploration of human emotions remains relevant, inviting readers to ponder the true meaning of innocence in a world bound by tradition.

Edith Wharton Helen Killoran, 1996 This book uses traditional methods to show that Edith Wharton's learning in literature and the fine arts was unusually masterful, that she applied her knowledge to create new models of literary allusion, and that in her work she planted clues to personal secrets. The effects of this study is to require reassessment not only of the critical possibilities of Edith Wharton's work and the private life about which she was so reticent but also of her position in American literature. The book concludes with the assertion that, as a bridge between the Victorian and modern periods, Edith Wharton should stand independently as an American writer of the first rank.

The Age of Innocence David Carpenter, 2011 The Age of Innocence is an opera based on the 1920 novel by Edith Wharton. Set in New York high society of the 1870's, it tells the story of Newland Archer, a young lawyer, his fiancée May Welland, and her cousin, the Countess Ellen Olenska, who has returned to her native New York in an aura of scandal, having left her husband, the dissolute Polish Count Olenski, in Europe. Although Archer and Ellen fall in love, he nevertheless follows the expectations of his family and marries the lovely but conventional May. For her part, while she sees a life with Archer as an escape from her loneliness, Ellen cannot allow herself to betray her cousin, insisting that she and Archer can love each other only if they remain apart. This love triangle is unique because of the social pressures placed upon Archer: he is a product of New York society, which has taught him to believe in the factitious idea of female innocence, as personified by May. Though he questions this and other conventions of his society, he is unable to bring himself to abandon the safety of these social norms that govern every aspect of proper behavior in New York. It is Archer's love for Ellen that prompts him to challenge these standards, pointing out New York's hypocrisy in welcoming May's cousin back to America while at the same time treating her as a pariah for abandoning her husband in Europe. None of their objections to Ellen is explicitly stated, however, for this is a world which has a morbid fear of the unpleasant--that is, anything that would disturb the calm surface of society's politesse and social grace. It comes as no surprise, then, that Archer's desire for Ellen (especially after he marries May), becomes a potential social nightmare for his family and all of New York, as they ruthlessly plot to drive the two apart, and send Ellen back to Europe. The main challenge in creating an opera out of this story, in addition to streamlining a lengthy and complex plot, was to delineate both in the libretto and the music the realms of the said and unsaid--that is, what the characters say in public, and what they say to themselves or to others that represents their innermost feelings. In the libretto, this was achieved by drawing upon Wharton's dialogue and narration in the novel in order to create these private and public utterances, in the form of recitatives, arias, duets, or ensemble pieces. The language of the libretto has been

fashioned to serve these different musical forms, with dialogue from the novel employed in moments of recitative; and freely-metered verse, with a modest use of rhyme, for the numbers of the opera. The music, meanwhile, employs a system of codes to define the realms of the said and unsaid--motives, sonorities and key relationships that bring into focus the interactions of the characters, especially Archer, Ellen and May as their drama plays out under the ever-watchful eyes of New York society. The music has also been rendered to bring out the stresses and meter of the text, and heighten the import of the words as sung by a particular character. I have attempted in my opera to bring to life the timeless themes of Wharton's novel: unfulfilled love, the individual versus society, the potential corrupting influence of desire, and the moral choices that human beings face as they wrestle with these common issues. Opera, through the language of music, is one of the few art forms capable of fully realizing these themes in a dramatic context--in this sense, it is just as relevant to our time as it was to Wharton's, and therefore remains a viable medium for the twenty-first-century composer.

The Reader's Companion to the Twentieth-century Novel Peter Parker, Frank Kermode, 1994 Can you remember who marries the narrator of *A Dance to the Music of Time*? Or what happens at the end of *Nineteen Eighty-Four*? Of which English classic did the author remark: 'How unexpected, how odd that people can read that difficult, grinding stuff'? Which American classic, left unfinished at its author's death, was put together by editors? Which novel did Evelyn Waugh (inaccurately) describe as 'an obscene book about domestic servants'? How many times has the Booker Prize been awarded to non-British writers? Who won the National Book Award in 1960: John Updike? Flannery O'Connor? John Barth? Harper Lee? What novels were people reading when the TLS was first published? When *Madame Butterfly* was first performed? When Matisse painted *The Dance*? When Wall Street crashed? When the Titanic sank? When Einstein formulated his General Theory of Relativity? When bobbed hair was all the rage? And which year was that? The answer to all these questions, and many more, will be found in *The Reader's Companion to the Twentieth Century Novel*. An informative and invaluable guide to modern fiction, it contains detailed accounts of some 750 novels from Britain, Ireland, the United States, Australia, New Zealand, Canada, Africa, India and the Caribbean. All the century's major novelists are represented, alongside less celebrated writers whose work has been unjustly neglected or fallen victim to the vagaries of literary fashion.
