Uncle John's Bathroom Reader Colossal Collection of Quotable Quotes Bathroom Readers' Institute,2012-06-01 You'll never be at a loss for words again with this inspired collection of quotes, from bona fide wits to bona fide dimwits. Bob Hope once said, I grew up with six brothers. That's how I learned to dance--waiting for the bathroom. No doubt, lots of people will be learning to tango and foxtrot while they wait for the rabid readers of Uncle John's Colossal Collection of Quotable Quotes to emerge from the privy. The Bathroom Readers' Institute searched high and low for the wittiest, wisest and stupidest things ever said, and collected these remarks in one remarkable volume. With more than 4,000 quotations from 1,600 speakers and writers--from bona fide wits like Oscar Wilde and David Letterman, to bona fide dimwits like Britney Spears (who infamously quipped, I go to lots of overseas places, like Canada.)--there's no other book of quotations quite like this one.

Personality Isn't Permanent Benjamin Hardy, 2020-06-16 Psychologist and bestselling author Benjamin Hardy, PhD, debunks the pervasive myths about personality that prevent us from learning—and provides bold strategies for personal transformation In *Personality Isn't Permanent*, Dr. Benjamin Hardy draws on psychological research to demolish the popular misconception that personality—a person's consistent attitudes and behaviors—is innate and unchanging. Hardy liberates us from the limiting belief that our “true selves” are to be discovered, and shows how we can intentionally create our desired selves and achieve amazing goals instead. He offers practical, science-based advice to for personal-reinvention, including:

- Why personality tests such as Myers-Briggs and Enneagram are not only psychologically destructive but are no more scientific than horoscopes
- Why you should never be the “former” anything--because defining yourself by your past successes is just as damaging to growth as being haunted by past failures
- How to design your current identity based on your desired future self and make decisions here-and-now through your new identity
- How to reframe traumatic and painful experiences into a fresh narrative supporting your future success
- How to become confident enough to define your own life's purpose
- How to create a network of “empathetic witnesses” who actively encourage you through the highs and lows of extreme growth
- How to enhance your subconscious to overcome addictions and limiting patterns
- How redesign your environment to pull you toward your future, rather than keep you stuck in the past
- How to tap into what psychologists call “pull motivation” by narrowing your focus on a single, definable, and compelling outcome

The book includes true stories of intentional self-transformation—such as Vanessa O'Brien, who quit her corporate job and set the Guinness World Record for a woman climbing the highest peak on every continent in the fastest time; Andre Norman, who became a Harvard fellow after serving a fourteen-year prison sentence; Ken Arlen, who instantly quit smoking by changing his identity narrative; and Hardy himself, who transcended his childhood in a broken home, surrounded by issues of addiction and mental illness, to earn his PhD and build a happy family. Filled with strategies for reframing your past and designing your future, *Personality Isn't Permanent* is a guide to breaking free from the past and becoming the person you want to be.

Confronting the Present Gavin Smith, 2021-01-07 Anthropologists study other people and worry about it. In the past this took the form of a professional desire to make our politics always somewhere else and to do with persons characterized as in some way different from ourselves. Now distances shrink and old forms of difference melt as global forces give rise to new processes of differentiation and new possibilities for political collectivities. How does this affect the way we might design a

politically relevant anthropology? This book examines these concerns in light of the author's shift from the study of rather distant people to people and places closer to home - a trend to be found within the discipline as a whole. How should anthropology respond to this change, as it increasingly finds itself in stamping grounds where other disciplines are already well-entrenched? How will work being done in anthropology intersect with that in other disciplines? Will anthropologists have anything to offer debates that have been ongoing in these other disciplines, such as those relating to social citizenship and collective identity, regionalism and the constitution of space and place, hegemony and resistance, political organization and cultural expression? Conversely, what can anthropologists learn from the way other disciplines formulate these issues and problems? Written to provoke discussion, this timely book aims to initiate a dialogue not only with anthropologists, but also with those in related disciplines who share a concern with people, politics and modernity. As well as anthropologists, the issues it tackles will be of interest to geographers, economists, political scientists, social historians and sociologists.
