An Introduction to Middle High German Howard Jones, Martin H. Jones, 2024-07-10 An Introduction to Middle High German is a dedicated student edition of The Oxford Guide to Middle High German (Jones & Jones; OUP, 2019) designed for taught courses and self-study. It offers a detailed account of the language and literature of German in the period 1050-1350, including an introductory-level grammar and a wide selection of texts with extensive explanatory material. Following an initial chapter that defines Middle High German linguistically, geographically, and chronologically, the grammar and lexis chapters offer a self-contained introduction to the language. The user-friendly and accessible grammatical descriptions and explanations will allow entry-level students to gain sufficient knowledge of the language to read and understand a range of Middle High German texts. Chapter 4 comprises thirty textual passages, each placed in context and with extensive explanatory footnotes to facilitate their use in teaching and class discussion. The volume also offers two essential glossaries, the first covering linguistic terms, and the second offering definitions of the Middle High German vocabulary that appears throughout the book.

Knowledge and Commitment Douwe Wessel Fokkema, Elrud Ibsch, 2000-01-01 The authors present a new perspective on a wide range of issues in the study of literature and culture. Some of the topics discussed, such as interpretation, canon formation, and literary historiography, belong to the traditional domain of literary studies. Others cultural identity, convention, systems theory, and empirical methods originate in the social sciences and are now being integrated into the humanities. By referring to the work of authors as widely apart as Hayden White, Edward Said, Fredric Jameson, Michel Foucault, Jacques Derrida, Reinhart Koselleck, Pierre Bourdieu, Niklas Luhmann, Siegfried Schmidt, Norbert Groeben, and many others, the full complexity of the field of literary studies becomes apparent. The authors argue for a distinction between analysis of literary systems on the one hand and critical intervention on the other. By distinguishing between research and criticism, between knowledge and commitment, they offer new ways for literary studies as well as for cultural critique.

CHINESE DIALECTS AND CULTURE ZHENHE ZHOU, RUJIE YOU, 2017-09-08 This book mainly focuses on the close relationship between Chinese dialects and Chinese culture. It reveals, on the one hand, a long, rich and splendid Chinese culture from the perspective of Chinese dialects; on the other hand, it unveils the evolution, the development of Chinese dialects as well as their diversity and charm at the cultural angle. By combining the study of Chinese dialects with that of the

history of Chinese culture, the author attempts to explore the cultural background of Chinese dialects' formation and evolution, and at the same time, the author attempts to view Chinese dialects as the key access to find solutions to related questions appeared in the history of Chinese culture. Thus, it not only opens a new research scope for the Chinese dialectology, but it also finds a new path for the study of cultural history. The book is the first of its kind to create the concept of cultural linguistics, which leads to a new era of combined research on both language and culture.

The Oxford Guide to Middle High German Howard Jones, Martin H. Jones, 2019 The Oxford Guide to Middle High German is the most comprehensive self-contained treatment of Middle High German available in English. It covers the language, literature, history, and culture of German in the period from 1050 to 1350 and is designed for entry-level readers, advanced study, teaching, and reference. The book includes a large sample of texts, not only from Classical works such as Erec, the Nibelungenlied, Parzival, and Tristan, but also from mystical writing, chronicles, and legal documents; the selection represents all major dialects and the full time span of the period. The volume begins with an introduction that defines Middle High German linguistically, geographically, and chronologically. Chapter 2 then provides a detailed exploration of the grammar, covering sounds and spelling, inflectional morphology, syntax, and lexis. Each section in this chapter begins with a summary of the main points, followed by detailed paragraphs for in-depth study and reference. Chapter 3 deals with versification, discussing metre, rhyme, lines of verse in context, and verse forms, and includes practical tips for scansion. Chapter 4 offers an account of the political and social structures of Medieval Germany and a survey of the principal types of texts that originated in the period. The final chapter of the book comprises over forty texts, each placed in context and provided with explanatory footnotes; the first two texts, to be taken together with the introductory grammar sections, are aimed at newcomers. A glossary provides full coverage of the vocabulary appearing in the texts and throughout the book.

Language, Society and Power Annabelle Mooney, Jean Stilwell Peccei, Suzanne LaBelle, Berit Engøy Henriksen, Eva Eppler, Anthea Irwin, Pia Pichler, Siân Preece, Satori Soden, 2010-12-14 Language, Society and Power is the essential introductory text for students studying language in a variety of social contexts. This book examines the ways in which language functions, how it influences thought and how it varies according to age, ethnicity, class and gender. It seeks to

answer such questions as: How can a language reflect the status of children and older people? Do men and women talk differently? How can our use of language mark our ethnic identity? It also looks at language use in politics and the media and investigates how language affects and constructs our identities, exploring notions of correctness and attitudes towards language use. This third edition of this bestselling book has been completely revised to include recent developments in theory and research and offers the following features: a range of new and engaging international examples drawn from everyday life: beauty advertisements, conversation transcripts, newspaper headlines reporting on asylum seekers, language themed cartoons, and excerpts from the television programme South Park and satirical news website The Onion new activities designed to give students a real understanding of the topic a new chapter covering 'Student Projects' - giving readers suggestions on how to further explore the topics covered in the book updated and expanded further reading sections for each chapter and a glossary. While it can be used as a stand-alone text, this edition of Language, Society and Power has also been fully cross-referenced with the new companion title: The Language, Society and Power Reader. Together these books provide the complete resource for students of English language and linguistics, media, communication, cultural studies, sociology and psychology.

An Introduction to Historical Linguistics Terry Crowley, 1997 All languages change, just as other aspects of human society are constantly changing. This book is an introduction to the concepts and techniques of diachronic linguistics--the study of language change over time. It covers all the major areas of historical linguistics, presenting concepts in a clear and concise way. While examples are given from a wide range of languages, most major concepts and techniques are illustrated by material drawn from the languages of Australia and the Pacific. The needs of undergraduate students of linguistics have been kept firmly in mind, but the book will also be of interest to the general reader seeking to understand language and language change. This third edition includes a number of rewritten and supplemented sections and new material on grammaticalization, ergativity and accusativity, language diversification, palaeolinguistics, and morphological evolution.

What is a Language Teacher? George W. Wilkins, 1969 A cursory consideration of the rather novel theme of the fifth annual Southern Conference on Language Teaching, *What is a Language Teacher?*", might lead one to suspect that the title was used as a catch-all for a variety of topics having little relation to each other or to the theme itself. A careful reading of the papers presented at the Conference, however, will soon dispel any such notion; their variety is merely an indication of the many facets of our profession, and of the many areas of specialization and concern requisite to the successful professional performance of the language teacher. It will be noted that few of the presentations are what could be termed controversial in nature. The frankness of exchange, and the honesty in approach to problems of language teaching suggest a unified effort on all levels, and from many different quarters, to achieve our oft-quoted goals: communication and understanding between people. If one were to distill the contents of the papers to a more specific, humanistic theme, perhaps the underlying attitude evidenced here could be characterized as: professional concern. Concern on the part of the teacher for the student; concern on the part of the members of one culture to communicate with members of another culture; concern with effective means of teaching middle-class students in ideal surroundings as well as with teaching students from subcultures within our affluent society; concern with the successful teaching of the four skills as well as with the training of literary scholars. Regretably, not all the papers were available for inclusion in these proceedings. As a final word about *What is a Language Teacher?* it would be appropriate for each of us to reflect upon those teachers we have had whose concern so influenced us that we are now involved in the same type of professional activity *¡Vaya un maestro!*
