United States. Office of Experiment Stations

Policing Child Sexual Abuse Paul Bleakley, 2021-09-15 Policing Child Sexual Abuse provides a historical overview of the evolution of policing child sexual abuse in Queensland, tracing a legacy of failure (even corruption) in the decades leading up to the foundation of Task Force Argos, a branch of the Queensland Police Service created in part as a response to criticisms of police shortcomings in this area. The book uses archival material as a foundation to trace the shifting approach to policing child sexual abuse (CSA) from the 1960s, when juvenile justice first became a central focus of policing in Queensland, to the 2010s, at which point Task Force Argos made international headlines for its primary role in bringing major international CSA offenders like Shannon McCoole, Benjamin Warhead Faulkner and Richard Huckle to justice. Examining archival material to pinpoint the reasons that CSA was not dealt with effectively in the past, the book shows that often these reasons were political, unrelated to the policing of CSA at all. Policing Child Sexual Abuse stands as a testament to the victims of CSA who have been failed by the system in the past. In addition, the book acts as a case study of how a police force with such a negative track record in policing this area was able to correct its path and reform its practices, to the point that it could emerge as a world leader in policing CSA. Though nominally focused on policing in one Australian state, the implications are global, with Task Force Argos's work naturally impacting on the CSA investigations of all of its partner agencies, both in Australia and internationally. Demonstrating how, even in contexts where police responses to CSA have been met with significant criticism, an opportunity still exists to reject historical failures in favour of a renewed commitment to proactive policing, this book will be of great interest to scholars of policing, historical criminology, and child sexual abuse.

Illicit Markets, Organized Crime, and Global Security Hanna Samir Kassab, Jonathan D. Rosen, 2018-06-26 This book explains the existence of illicit markets throughout human history and provides recommendations to governments. Organized criminal networks increased in strength after the enforcement of prohibition, eventually challenging the authority of the state and its institutions through corruption and violence. Criminal networks now organize under cyber-infrastructure, what we call the Deep or Dark Web. The authors analyze how illicit markets come together, issues of destabilization and international security, the effect of legitimate enterprises crowded out of developing countries, and ultimately, illicit markets' cost to human life.

Use of Social Networking Technology in Sex Trafficking Siddhartha Sarkar, 2024-02-02 The rise of the Internet and

mobile phone usage can work in support of traffickers, helping them to keep a low profile and facilitating human trafficking rings on a global scale—especially for commercial sex exploitation, where traffickers use the Internet as a tool to target vulnerable women and children. Based on the theoretical and empirical evidence from Northeast India, Use of Social Networking Technology in Sex Trafficking leads the way to comprehending the need for further research on technology security to combat sex trafficking.

Women, Power and Autonomy Jocelynn A. Scutt, 2025-11-12 This book explores women's rights from an international perspective. The authors discuss abortion, surrogacy, prostitution, marriage and family law, touching on themes including children, property, forced and arranged marriage and under-age marriage, separation, divorce and widowhood. They also analyse commerce and financial rights, as well as employment rights and women in the corporate sector. Throughout the book these topics raise questions of respect, from the perspective of violence against women, provision of resources and services, and women in the criminal justice system under bail and imprisonment. This book also addresses the representation of women in media and politics, including in film and literature. Overall, the authors explore the intersection of rights, respect and representation, and their roles in women's status in society as well as in law.

Science Informed Policing Bryanna Fox, Joan A. Reid, Anthony J. Masys, 2020-06-17 The current policing landscape has seen the rise in serious and organized crime across the globe. Criminals are innovating in real-time leveraging cyber, social media, enhanced surveillance to support their activities. In so doing, the criminal landscape has become transnational whereby collaborative networks have flourished thereby creating greater complexity and novel threats for the international policing community. As new threats to local, regional, national and global security are emerging, leveraging science and technology innovations has become more important. Advances in big data analytics, cyber forensics, surveillance, modeling and simulation has led to a more data driven, hypothesis generated and model informed approach. Novel science and technology innovations are presented in this edited book to provide insights and pathways that challenges the emerging and complex criminal threat landscape by supporting policing operations.
