Savannah River Site at Fifty Mary Beth Reed,2002 "The heart of the book is a historical treatment of Savannah River Site's operations its peak period of production, 1953 to 1979. Developments in reactor technology and chemical separations, heavy-water production, waste management, and the research goals of the Savannah River Laboratory are described in layman's terms and are amply illustrated. This history profiles the individuals who brought the plant to maturity and explores the two themes that define the nuclear weapons workplace, safety and security."
