Fundamentals of Geographic Information Systems (GIS), Exercises Michael N. DeMers, 1999-01-20 The second edition of this well-received text on principles of geographic information systems (GIS) continues the author's style of straight talk in its presentation. The writing is accessible and easy to follow. Unlike most other texts, this book covers GIS design and modeling, reflecting the author's belief that modeling and analysis are at the heart of GIS. This enables students to understand how to use a GIS and what it does.--Publisher description.

An Approach to Spatial Data Gathering Technology Jianchun Xu,2006

Land Management Information Systems in the Knowledge Economy ,2007 The economies of most African countries rely heavily on agriculture and other land and land-based activities such as tourism, mining and livestock production. Indeed, these are the core activities through which African countries participate in the global economy. Moreover, land is key to food security and the social-cultural needs of most communities in Africa. It has also been established that the performance of most sectors of the economies of African countries is indeed tied to that of the land sector. The management of this sector must therefore be accorded priority attention in all countries in order to unlock the overall performance of national economies. This is best done through comprehensive land policies developed to address all the cross-sectoral needs and the unique circumstances in each of the countries. It is in response to this challenge that the African Union(AU), the African Development Bank(AfDB) and the Economic Commission for Africa(ECA) embarked on an exercise to develop a continental

framework to guide land policy formulation and implementation in AU member States. However, the effective formulation and implementation of land policies can only be best done in circumstances where all the land information necessary is availed in a suitable, timely and up-to-date form to enable expedient decision-making by the policy planners in each of the sectors. -- provided by publisher.
