

Its Your Ship

E Durkheim

It's Your Ship Captain D. Michael Abrashoff, 2007-10-15 The legendary New York Times bestselling tale of top-down change for anyone trying to navigate today's uncertain business seas. When Captain Abrashoff took over as commander of USS Benfold, it was like a business that had all the latest technology but only some of the productivity. Knowing that responsibility for improving performance rested with him, he realized he had to improve his own leadership skills before he could improve his ship. Within months, he created a crew of confident and inspired problem-solvers eager to take the initiative and responsibility for their actions. The slogan on board became It's your ship, and Benfold was soon recognized far and wide as a model of naval efficiency. How did Abrashoff do it? Against the backdrop of today's United States Navy, Abrashoff shares his secrets of successful management including: See the ship through the eyes of the crew: By soliciting a sailor's suggestions, Abrashoff drastically reduced tedious chores that provided little additional value. Communicate, communicate, communicate: The more Abrashoff communicated the plan, the better the crew's performance. His crew eventually started calling him Megaphone Mike, since they heard from him so often. Create discipline by focusing on purpose: Discipline skyrocketed when Abrashoff's crew believed that what they were doing was important. Listen aggressively: After learning that many sailors wanted to use the GI Bill, Abrashoff brought a test official aboard the ship-and held the SATs forty miles off the Iraqi coast. From achieving amazing cost savings to winning the highest gunnery score in the Pacific Fleet, Captain Abrashoff's extraordinary campaign sent shock waves through the U.S. Navy. It can help you change the course of your ship, no matter where your business battles are fought.

Changing a Troubled Ship's Course D. Michael Abrashoff, 2010-02-01 Figure out what's wrong, enlist your people in the cause of fixing it, persuade them to take ownership, and never declare victory. That's the advice of D. Michael Abrashoff, author of The New York Times and The Wall Street Journal bestseller It's Your Ship, on how to turn around any organization. The Atlanta Falcons hit rock bottom the day a tornado ripped off half of its stadium's roof. By then, their charismatic quarterback, Michael Vick, was in prison for leading a dog-fighting ring. Their coach, Bobby Petrino, had defected in mid-season to college football. They'd won only four games in 2007, losing 12. They weren't just defeated; they were demoralized, beaten, losers. It was up to their owner, Arthur Blank, cofounder of Home Depot, to turn this sorry situation around. And in one of the deftest performances I've ever heard of, he did. By the end of 2008, the Falcons had gone to the playoffs with an

11-5 record. Their new coach, Mike Smith, was NFL Coach of the Year. Their quarterback, Matt Ryan, was NFL AP Offensive Rookie of the Year. "This is the season of miracles," Blank said. But the miracles all traced to the careful moves he'd made....

How to Boost Your Crew's Morale D. Michael Abrashoff, 2010-02-01 Companies and ships have this in common: Success depends heavily on crew morale, the eagerness born of spirit, zeal, and zest. You can't buy morale, much less bribe or bully it into existence. But you can sharply boost it--at little or no cost--by spicing serious work days with unserious good times. These are difficult times in the business world. No company or job is safe anymore. And the fear of unemployment is real for many people. In some respects, high morale can be defined as having faith that your company's business prospects will mean that you continue to have a job. However, we must all strive for greater excellence in the workplace, even in tough times. Every manager's worst nightmare is a workplace full of enemies--angry, bitter, bored people who despise their bosses, along with themselves. The next worse nightmare is a workforce of robots who do their jobs as convicts do time, with zero creativity, enthusiasm, or loyalty to the company and its goals. In both cases, leaders have themselves mainly to blame. Along with myopic hiring, they create and perpetuate dysfunctional companies by not seizing their power--and duty--to humanize the workplace, lighten up the climate, and help people actually enjoy their jobs.

Get Results, Not Salutes D. Michael Abrashoff, 2010-02-01 Give people power to do their job and clear the decks of anything that keeps them from doing it, and leave your ego on shore. That's the advice of D. Michael Abrashoff, author of The New York Times and The Wall Street Journal bestseller It's Your Ship. Our ship, USS Benfold, was serving in the Persian Gulf in the 1997 Iraq crisis, and the entire U.S. fleet there was snagged in a giant communications snafu. At any moment, some 7,000 messages could go astray or just stop moving. Ironically, Benfold and many other ships were equipped with a new satellite system for launching Tomahawk missiles. But most radio operators hadn't been trained to use it for anything besides launching missiles. Not so John Rafalko, who pored over its manuals and told me it could solve all our communications problems. I reported this to the admiral's chief of staff for communications, who rejected the idea. With the fleet verging on chaos, I went over his head and told the admiral--who erupted, chewed out his subordinate, and ordered him to adopt Rafalko's plan immediately. We flew John all over the Gulf to train other operators, and suddenly the whole fleet was communicating seamlessly. This radioman saved the Navy's bacon: My only role was to listen and back him up.
