Lincoln Child

Full Wolf Moon Lincoln Child, 2017-05-16 The New York Times bestselling author of *The Forgotten Room* and *Deep Storm* is back with a new thriller featuring Jeremy Logan, the renowned investigator of the supernatural and fantastic, as he follows the trail of a killer who cannot exist. Legends, no matter how outlandish, are often grounded in reality. This has been the guiding principle behind the exhilarating career of Jeremy Logan, the enigmologist--an investigator who specializes in analyzing phenomena that have no obvious explanation--previously seen in *The Forgotten Room*, *The Third Gate*, and *Deep Storm*. Logan has often found himself in situations where keeping an open mind could mean the difference between life and death, and that has never been more true than now. Logan travels to an isolated writers' retreat deep in the Adirondacks to finally work on his book when the remote community is rocked by the grisly discovery of a dead hiker on Desolation Mountain. The body has been severely mauled, but the unusual savagery of the bite and claw marks call into question the initial suspicions of a wild bear attack. There is no shortage of human suspects, and when Logan is asked to help investigate, he also discovers no shortage of suspects capable of such an attack--and no shortage of locals willing to point the finger and spread incredible rumors. One rumor, too impossible to believe, has even the forest ranger believing in werewolves. His most action-packed and white-knuckled novel to date, *Full Wolf Moon* is the perfect combination of exotic locales, provocative science, and raw action that make for a deeply entertaining Lincoln Child blockbuster.
