

Person To Job Fit

Barry Silverstein

Person Or Job? Change in Person-Job Fit and Its Impact on Employee Work Attitudes Over Time Tae-Yeol Kim, Sebastian C. Schuh, Yahua Cai, 2020 Fit is generally conceptualized as a dynamic construct, but most research on person-environment fit has focused on fit in the current moment. We addressed this oversight by examining the dynamic relationships among person-job (PJ) fit, demand-ability (DA) fit, need-supply (NS) fit, and employee work attitudes over time using a three-wave survey design over a 12-month period. Results from 168 employees revealed that change in PJ fit was significantly related to changes in job satisfaction and affective organizational commitment. In addition, DA and NS fit changes were significantly and indirectly associated with job satisfaction and commitment changes through PJ fit change. We also found that increases in job demands and employee abilities significantly decreased DA fit, and increases in employee needs significantly decreased NS fit whereas increases in job supplies significantly increased NS fit. Finally, we examined age as an important moderator for employees' reactions to PJ fit changes, and found that younger employees reacted more strongly to increases/decreases in PJ fit than did older employees.

Work Motivation Gary P. Latham, 2007 'Dr. Latham's book is very detailed about under whom and where the major writers on work motivation studied. This makes for interesting asides. His footnotes are both informative and eyebrow raising. His personal journey through all this is insightful, charming, and a great contribution to understanding the lineage of psychologists. I plan on loaning to other nonpsychologists as well as assigning it to my students.' CANADIAN PSYCHOLOGY Work Motivation: History, Theory, Research, and Practice provides unique behavioral science frameworks for motivating employees in organizational settings. Drawing upon his experiences as a staff psychologist and consultant to organizations, author Gary Latham has written this book in a mentor voice that is highly personal and rich in examples, including enduring influences of mentors on researchers in the field. Key Features Includes anecdotes about and from the major thought leaders in the field of motivation: Personal insights from and about leading personalities in the field of motivation such as Bandura, Frese, Hough, Judge, Kanfer, Lawler, Locke, Pinder, Rousseau, and Vroom make the material come alive. Behind-the-scenes accounts of research and the researchers who conducted studies in North America, Africa, Asia, Australia, and Europe are addressed. Offers a chronological review of the research on and theories of motivation in the workplace: Written in a meaningful and memorable style, a comprehensive treatment of work motivation is given from the

end of the 19th century to the present. Provides a taxonomy for the study and practice of motivation: The book explains how and why to take into account a person's needs, values, work setting, goals, moods, and emotions. Controversies of theoretical and practical significance such as the importance of money, the relationship between job satisfaction and job performance, and the distinction between intrinsic and extrinsic motivation are captured and resolved. Intended Audience: This is an excellent text for advanced undergraduate and graduate students studying work motivation in the departments of Industrial/Organizational Psychology, Organizational Behavior, and Human Resource Management. De Gruyter Handbook of Disability and Management Joy Beatty, Sophie Hennekam, Mukta Kulkarni, 2023-03-20 Globally, the prevalence of disability is growing, as is disability awareness. The disability rights movement argues that the right to employment is essential for full participation and human dignity. While there have been improvements related to broad diversity programs and policies, those for persons with disabilities, especially less visible or invisible disabilities, have received less attention. Contextual factors such as the legal environment and protections, cultural and social values, religious norms, and broader economic conditions shape the employment prospects for persons with disabilities. The De Gruyter Handbook of Disability and Management uses an interdisciplinary lens to study disability and management, integrating perspectives from disability studies, psychology, education, and legal domains. It aims to incorporate a contextually sensitive and global perspective to emphasize actionable areas of inclusion and provides a more international focus by including contributions from across the world including countries and regions that have till date received less attention in the area of disability studies. Managers, human resource professionals, and policy makers can be more proactive to support persons with disabilities, and more insights, best practices, and tools are needed to facilitate this support. This handbook will guide and support efforts of organizational stakeholders and policy makers as they strive to be more inclusive.

Person-job Fit and Person-organization Fit as Components of Job Seeking Carrie Anne Rodgers,2000 Job seekers have often made job choices based upon the degree to which they fit the tasks requirements of the job. This concept is referred to as person-job (P-J) fit. In addition, research has suggested that job seekers self-select organizations to work for based upon the perceived fit between themselves and the organization. This concept is referred to as person-organization (P-O) fit.
