Her research led her to create the Ecological Love concept, an alternative to the proposed models, from a natural health perspective. Demography, forced reproduction, freedom and homophobia: ecology. The existence of a certain diktat creates a barrier to emancipation. Ecological Love is a social movement that supports intelligent, healthy and responsible practices that are much more likely to observe the basic rules of biology in which health, the principle of freedom of association and reproduction take precedence. www.EcologicalLove.com

The Assault on Priesthood Lawrence B. Porter, 2012-07-20 The concept and institution of priesthood in the Catholic Church has been the subject of serious challenge not only since the time of the Protestant Reformation but also, more recently, from within the Catholic Church, as the Second Vatican Council (1962-1965) and theologians afterward have reconsidered the place and function of priests in relation to both bishops and laity. In dialogue with those challenges, and by means of research into Scripture and the theological tradition--patristic, medieval, and modern--the author of this book considers classic images of priests and priestly ministry as a way of recovering an understanding of the priesthood that is at once both biblically and theological sound.

These physicians may be great clinicians and enthusiastic about taking a leadership position, but neither of these characteristics automatically makes a great leader.
