Teenage Shooters Travis Barrett,2008-06 Teenage Shooters is about Freddy Louche's world. Who is Freddy Louche? If you asked him he would tell you that he is an all-American teenage loser who lives in a neighborhood populated by gangbangers and bullies. He hates school because the classes are boring and many of the students are intimidators. But there are three things Freddy loves: his skateboard, his video games, and his father.His skateboard is a Serial Killer which sports an image of Charles Manson. In a strange way Freddy never feels alone when he is riding Manson, who is also his protector, at least until that fateful night when Freddy's life begins to rapidly unravel.Resident Evil is Freddy's favorite video games because in the world of survival horror he can defend himself against the zombies and other monsters that remind him

of the cretin bullies who hang out in the corridors of his school and the thugs that roam the streets of his city, a city that is in many ways like Raccoon City, which was also an all-American city until the walking dead and other beasts took control of its streets. Freddy's father is the one adult Freddy can always depend upon. Unfortunately, Mr. Louche, like the school authorities and the police, cannot protect his son from the thugs and bullies who constantly harass him. Thus, a time finally comes when Freddy and his loser friends must take on their tormentors.

Making It Ellen T. Meiser, 2024-10-11 The restaurant industry is one of the few places in America where workers from lower-class backgrounds can rise to positions of power and prestige. Yet with over four million cooks and food-preparation workers employed in America's restaurants, not everyone makes it to the high-status position of chef. What factors determine who rises the ranks in this fiercely competitive pressure-cooker environment? *Making It* explores how the career path of restaurant workers depends on their accumulation of kitchen capital, a cultural asset based not only on their ability to cook but also on how well they can fit into the workplace culture and negotiate its hierarchical structures. After spending 120 hours working in a restaurant kitchen and interviewing fifty chefs and cooks from fine-dining establishments and greasy-spoon diners across the country, sociologist Ellen Meiser discovers many strategies for accumulating kitchen capital. For some, it involves education and the performance of expertise; others climb the ranks by controlling their own emotions or exerting control over coworkers. *Making It* offers a close and personal look at how knowledge, power, and interpersonal skills come together to determine who succeeds and who fails in the high-pressure world of the restaurant kitchen.
