Rachel Havrelock

Underground Water in the Valleys of Utah Lake and Jordan River, Utah George Burr Richardson,1906

Sooke and Duncan Map-areas, Vancouver Island Charles Horace Clapp,Harold Caswell Cooke,1917

River Jordan Rachel Havrelock,2011-12 As the site of several miracles in the Jewish and Christian traditions, the Jordan is one of the world's holiest rivers. It is also the major political and symbolic border contested by Israelis and Palestinians. Combining biblical and folkloric studies with historical geography, Rachel Havrelock explores how the complex religious and mythological representations of the river have shaped the current conflict in the Middle East. Havrelock contends that the intractability of the Israeli-Palestinian conflict stems from the nationalist myths of the Hebrew Bible, where the Jordan is defined as a border of the Promised Land. Both Israelis and Palestinians claim the Jordan as a necessary boundary of an indivisible homeland. Examining the Hebrew Bible alongside ancient and modern maps of the Jordan, Havrelock chronicles the evolution of Israel's borders based on nationalist myths while uncovering additional myths that envision Israel as a bi-national state. These other myths, she proposes, provide roadmaps for future political configurations of the nation. Ambitious and masterful in its scope, *River Jordan* brings a fresh, provocative perspective to the ongoing struggle in this violence-riddled region.

Sustainable Development in the Jordan Valley Jeroen Kool,2016-10-14 This book summarizes the NGO Master Plan that provides a comprehensive program to rehabilitate the Lower Jordan River and its tributaries in Jordan, Israel and Palestine. It is a regional and civil society effort designed to promote the restoration of the valley's environmental and ecological values within a realistic financial and economic framework. The plan identifies 127 specific regional and national interventions(projects) until the year 2050, based on seven strategic planning objectives: pollution control, sustainable water management and river rehabilitation, sustainable agriculture, Jordan River basin governance, ecological rehabilitation, sustainable tourism and cultural heritage development, and urban and infrastructure development. The total investment value is 4.58 billion USD, the plan ranks the interventions and identifies their feasibility in a short, medium and long term investment cycles considering the political environment.

Historical Geography of Bible Lands a Manual for Teachers with Fourteen Maps Richard Morse Hodge,1915

Geographical Pamphlet Martha Tarbell,1907

The Jordan River Area Near Revelstoke, British Columbia James T. Fyles,1970 This study describes the structure & lithology of rocks associated with conformable lead-zinc deposits in the Shuswap Metamorphic Complex located north-west of Revelstoke, British Columbia. The purpose of the study is to define the structure of individual layers as an aid to detailed exploration and to determine the stratigraphy & structure near the deposits as an aid to regional prospecting. Chapter 2 contains descriptions of the various rock units & intrusions found in the study area and chapter 3 describes the structural geology and its regional significance. The final chapter provides details on the area's mineral deposits and geological setting, with particular emphasis on the concordant lead-zinc deposits. Includes index.
