Empowering Play in Primary Education Aimee Durning, Sara Baker, Paul Ramchandani, 2024-07-31 The education system does not always promote or give primacy to play within the curriculum, yet research and policy alike acknowledge the importance of play for children and young people. *Empowering Play in Primary Education* addresses this issue, contributing innovative ideas about how teachers, teaching assistants and children may incorporate play within the classroom while also advocating for its use as a powerful tool for ensuring successful learning outcomes. Packed with imaginative ideas and practical suggestions, this essential book combines theory with tried and tested practice to encourage and inspire teachers to make use of the pedagogy of play and enhance their children's learning experience. Topics explored within the book include but are not limited to: Playful enquiry exploring the relationship between academic research and practitioner wisdom; Practices of play within different settings; Inclusive practice for play in the primary school; Designing a high-quality, low-cost model for play in the Early Years; Play within the wider school community, e.g., playful leadership and pedagogy as play. This is an essential read for any teacher, teaching assistant, headteacher, senior leader or policy maker who wishes to embed more opportunities for play within their curriculum and school.

The Crafting of the Postwar Peace Treaty with Japan, 1945-1951 Seung Mo Kang, 2024-11-20 This book examines how the Treaty of Peace with Japan, a momentous agreement that delineated postwar order in the Pacific, was negotiated between Japan and 48 other nations in 1951. Even though the treaty was created to legally end the state of war between Japan and its Pacific War enemies, many other considerations - some of which had hardly anything to do with the Pacific War - were involved. The US-Soviet rivalry was the most representative, but this was not the only factor. For instance, the decision to invite Cambodia, Laos and Vietnam as signatories was determined based on French colonial interests, Indochinese yearning for independence and the need for French contribution in the North Atlantic Treaty Organization.

Similarly, German reparations settlements after the First and Second World Wars impacted Japanese reparations settlement. Meanwhile, the commercial terms of the treaty were informed by the Great Depression and its legacies. This book addresses these aspects of the peace treaty that are hitherto not sufficiently elaborated upon in existing studies. Highlighting the importance of the treaty for shaping postwar East Asia and international relations in the region to the present day, this book will be a valuable resource for students and scholars of post-war Japan, International relations, and the Cold War.

Canada's Fluid Borders Geoffrey Hale,Greg Anderson,2021-01-05 Crossing borders involves much more than going through checkpoints. By drawing on an innovative transdisciplinary reconceptualization of the border as elastic or fluid, Canada's Fluid Borders offers fresh interpretations of the major geopolitical and socioeconomic issues that require the immediate attention of Canadian policymakers. Trade and investment policies face a changing geopolitical environment. They also face challenges from the interactions and limits of Canada's multiple trade agreements with other countries. These challenges take on varied forms in different sectors that involve the bordering of energy trade, food safety, and related environmental and public health issues. Similarly, bordering dynamics differ significantly for cross border flows of tourism, skilled labour, and irregular migration. This book uncovers and analyzes factors that govern economic activity and human interaction across Canada's fluid border. The contributors to this collection engage major domestic political, technical, and administrative factors that shape the conditions for and constraints on effective international policy and regulatory cooperation.

The Strength of Our Commitments Corina Lacatus,2024-03-13 The number of international agreements defining and committing signatories to enforcing human rights in their domestic law has grown over the postwar era. Accompanying these agreements has been the development of domestic agencies to enforce these obligations. Cora Lacatus has surveyed human rights agencies around the world to determine how effective they are in enforcing human rights and what explains the success of some of these agencies and the failures of others. Lacatus contends that international support for these agencies is critical to their success. She points to the efforts of the European Union to set standards for agency performance and to provide political support for the agencies in its member countries as an example of the influence of international organizations. Lacatus also contends that how these agencies cultivate domestic political support is important. Are the agencies important to a government in sending a signal to key groups in the country of its support for human rights? Does the vitality of the agency send an important signal to key international actors of the governments support for certain values? The audience for this book will primarily be among scholars in international relations. It is the last book for the series Chicago Series on International and Domestic Institutions--

A Feminist Urban Theory for Our Time Linda Peake,Elsa Koleth,Gokboru Sarp Tanyildiz,Rajyashree N. Reddy,darren patrick/dp,2021-08-09 What does a feminist urban theory look like for the twenty first century? This book puts knowledges of feminist urban scholars, feminist scholars of social reproduction, and other urban theorists into conversation to propose an approach to the urban that recognises social reproduction both as foundational to urban transformations and as a methodological entry-point for urban studies. Offers an approach feminist urban theory that remains intentionally cautious of universal uses of social reproduction theory, instead focusing analytical attention on historical contingency and social difference Eleven chapters that collectively address distinct elements of the contemporary crisis in social reproduction and the urban through the lenses of infrastructure and subjectivity formation as well as through feminist efforts to decolonize urban knowledge production Deepens understandings of how people shape and reshape the spatial forms of their everyday lives, furthering understandings of the 'infinite variety' of the urban Essential reading for academics, researchers and scholars within urban studies, human geography, gender and sexuality studies, and sociology

English for Everyone Ashish Chandra,2017-02-24 A three-level English Course book for teenage and young adult learners. 'English for Everyone' covers all the things taught at A1 to C1 (CEF) level. This book is designed to enable its readers to become skilled at Spoken English. Whenever we talk about learning English, we start talking about tenses, grammar and vocabulary. Memorize tenses, master grammar and mug up some commonly used words and you will master English. But despite learning tenses, grammar and vocabulary, people are unable to converse in English effectively. Why? Because this is not the right method to learn English.Let me ask you something. If you are an Indian, you can probably speak

Hindi well. Have you ever learnt Hindi tenses? Have you ever learnt Hindi grammar rules or Hindi word meanings? I believe that your answer is 'No' with a capital 'N'. Then how do you speak Hindi or your mother tongue fluently? Think hard. Nobody talks about learning tenses or grammar when it comes to speaking Hindi proficiently. But everyone talks about learning tenses, understanding grammar and strengthening vocabulary when it comes to speaking English fluently. English or any language, for that matter, is learnt by using it in practice. Let me ask you how any child learns his mother tongue. How an Englishman's baby learns English and an Indian's child learns Hindi. When a child is born, the environment around him teaches the language. He hears the language in the background and that serves as a kind of practice for him. Listening to the language repeatedly enables the child to start understanding it. He tries speaking and becomes fluent in the language in a few months. We will apply a similar method to learn English in this course. The lessons in this book will help you to practice the English language in everyday situations. We will not focus on theory. We will focus on practice. We understand that there are many people out there who know the theories of grammar but are very poor at spoken English. This is because knowing concepts is not equal to applying concepts. In this course, every lesson will help you to apply and not simply know concepts. This is how language is learnt. This is how you will learn English too. All the best!

Urban Issues CQ Press,CQ Press Staff,2007 Are rescue personnel prepared to respond to the next natural disaster? Can managed growth reduce urban sprawl? Does Head Start focus too much on health care and nutrition and not enough on building basic skills? These are just a sampling of the important, provocative questions in this popular reader, sure to lay needed groundwork and spark lively classroom discussion. For current coverage of controversial and important policy issues centering on urban politics, offer your students the balanced reporting and engaging writing that The CQ Researcher has consistently provided for over 80 years. This ideal supplement allows students to see an issue from all sides while giving them a window into how policy is actually made and implemented. In addition, useful pedagogical features-pro/con pieces, graphs, tables, maps, photos, suggested readings, and bibliographies-advance critical thinking and help in study and review.

Governing Low-carbon Development and the Economy Hidenori Niizawa,Tōru Morotomi,2014 Based on results of the first phase of the Kyoto Protocol—which requires participating industrial countries to limit their carbon emissions—this

book recommends creating a global regulatory regime that would set emission targets for all nations. The authors argue that once these targets and the policies for meeting them are established, countries will be spurred to develop lower-carbon-producing economies. The book discusses experiences in Japan primarily, along with results from collaborative research between Japan and the Republic of Korea and comparative studies between Japan and Germany. The chapters adopt different perspectives, looking at the issue from the discipline of economics as well as a more sociological, neo-institutionalist viewpoint.--Publisher's description.

Trade Policy Review - Separate Customs Territory of Taiwan, Penghu, Kinmen, and Matsui . World Tourism Organization, 2017-03-28 Each Trade Policy Review consists of three parts: a report by the government under review, a report written independently by the WTO Secretariat, and the concluding remarks by the chair of the Trade Policy Review Body. A highlights section provides an overview of key trade facts. 15 to 20 new review titles are published each year. The reviews consist of detailed chapters examining the trade policies and practices of the member and describing trade policy-making institutions and the macroeconomic situation; these chapters are preceded by the Secretariat's Summary Observations, which summarize the report and presents the Secretariat's perspective on the member's trade policies. The Secretariat report and the member's policy statement are published after the review meeting, along with the minutes of the meeting and the text of the Chairperson's Concluding Remarks.
