## Truman Capote

Breakfast at Tiffany's Truman Capote, 2012-05-15 Holly Golightly knows that nothing bad can ever happen to you at Tiffany's. In this seductive, wistful masterpiece, Capote created a woman whose name has entered the American idiom and whose style is a part of the literary landscape—her poignancy, wit, and naïveté continue to charm. This volume also includes three of Capote's best-known stories, "House of Flowers," "A Diamond Guitar," and "A Christmas Memory," which the Saturday Review called "one of the most moving stories in our language." It is a tale of two innocents—a small boy and the old woman who is his best friend—whose sweetness contains a hard, sharp kernel of truth.

**Fifth Avenue, 5 A.M.** Sam Wasson, 2011-09-25 Before Breakfast at Tiffany's Audrey Hepburn was still a little-known actress with few film roles to speak of; after it - indeed, because of it - she was one of the world's most famous fashion, style and screen icons. It was this film that matched her with Hubert de Givenchy's "little black dress". Meanwhile, Truman Capote's original novel is itself a modern classic selling huge numbers every year, and its high-living author of perennial interest. Now, this little book tells the story of how it all happened: how Audrey got the role (for which at first she wasn't considered, and which she at first didn't want); how long it took to get the script right; how it made Blake Edwards' name as a director after too many trashy films had failed to; and how Henry Mancini's soundtrack with its memorable signature tune 'Moon River' completed the irresistible package. This is the story of how one shy, uncertain, inexperienced young actress was persuaded to take on a role she at first thought too hard-edged and amoral - and how it made Audrey Hepburn into gamine, elusive Holly Golightly in the little black dress - and a star for the rest of her life.

*"Breakfast at Tiffany's". The Message of Truman Capote's Novella Compared to the Film Adaptation* Damaris

Englert, 2013-10-28 Seminar paper from the year 2013 in the subject Communications - Movies and Television, grade: 1,7, Johannes Gutenberg University Mainz, course: Cultural Studies, language: English, abstract: The story of *Breakfast at Tiffany's* is well known: Holly, a young glamour girl, tries to find her way in New York City, relying on the favor of male benefactors who give her "powder-room change", while at the same time she keeps chasing her dream of marrying a rich millionaire. Paul Varjak, a young writer, falls in love with her and tries to convince her to settle down with him. The movie has become a crucial cultural reference. But before the film, there was a source text: a novella by the same title, written by Truman Capote and published in 1958. The film adaptation was made only three years later, by director Blake Edwards, scriptwriter George Axelrod and the producers Martin Jurow and Richard Shepherd. Those who have read Capote's novella and have seen the film usually complain about huge difference between the two - and they undoubtedly have a point. However, adaptation studies have far too long concentrated on the issue of fidelity alone, implying that a story could just be projected on the screen without having to undergo change. But film and literature are two very different mediums and thus, in the process of an adaptation, transformation must occur. There is no need for proving that book and film are different - this has been discussed many times before and can be read in a great number of critical reviews. But there is much more to adaptation studies than a simple fidelity analysis. What I intend to do is to find out why book and film differ crucially in many points in order to prove that in spite of sharing (at least in big part) the same characters, the same setting, important parts of the story, key motifs and even often the same dialogues, the novella *Breakfast at Tiffany's* and the film based on it actually tell very different stories with very different, even contradictory underlying messages and thus with a very different reception and impact.
