She played and sang Gillian Dooley, 2024-03-05 Like her much-loved heroine Emma Woodhouse, Jane Austen 'played and sang'. Music occupied a central role in her life, and she made brilliant use of it in her books to illuminate characters' personalities and highlight the contrasts between them. Until recently, our knowledge of Austen's musical inclinations was limited to the recollections of relatives who were still in their youth when she passed away. But with the digitisation of music books from her immediate family circle, a treasure trove of evidence has emerged. Delving into these books, alongside letters and other familial records, *She played and sang* unveils a previously unknown facet of Austen's world. This insightful work not only uncovers the music closely associated with Austen, but also unravels her musical connections with family and

friends, revealing the intricate ties between her fiction and the melodies she performed. With these revelations, Austen's musical legacy comes to life, granting us a deeper understanding of her artistic prowess and the influences that shaped her literary masterpieces.

Dvořák Neil Wenborn,2008 Catapulted to international fame by the runaway success of his Slavonic Dances, Dvorak was, by the end of his life, one of the world's most celebrated composers. This book traces the course of an extraordinary creative career that embraced the peasant music-making of rural Bohemia, the grand receptions of Victorian England and the dynamism of fin-de-siecle New York to shape the most versatile genius in the annals of late Romanticism.

Angelic Airs, Subversive Songs Alisa Clapp-Itnyre,2002 This volume positions music as a charged site of cultural struggle, promoted concurrently as a transcendent corrective to social ills and as a subversive cause of those ills. Alisa Clapp-Itnyre examines Victorian constructions of music to advance patriotism, Christianity, culture and domestic harmony, and suggests that often these goals were undermined by political tensions in song texts or immoral sensuality in the spectacle of live music-making.

Opera András Batta,Sigrid Neef,2000 Work-by-work guide to 338 operas by 124 composers. Includes a short biography of each composer and many photographs of staged opera performances and performers.
