The Polyvagal Theory in Therapy Deb Dana, 2018-06-12 The polyvagal theory presented in client-friendly language. This book offers therapists an integrated approach to adding a polyvagal foundation to their work with clients. With clear explanations of the organizing principles of Polyvagal Theory, this complex theory is translated into clinician and client-friendly language. Using a unique autonomic mapping process along with worksheets designed to effectively track autonomic response patterns, this book presents practical ways to work with clients' experiences of connection. Through exercises that have been specifically created to engage the regulating capacities of the ventral vagal system, therapists are given tools to help clients reshape their autonomic nervous systems. Adding a polyvagal perspective to clinical practice draws the autonomic nervous system directly into the work of therapy, helping clients re-pattern their nervous systems, build capacities for regulation, and create autonomic pathways of safety and connection. With chapters that build confidence in understanding Polyvagal Theory, chapters that introduce worksheets for mapping, tracking, and practices for re-patterning, as well as a series of autonomic meditations, this book offers therapists a guide to practicing polyvagal-informed therapy. *The Polyvagal Theory in Therapy* is essential reading for therapists who work with trauma and those who seek an easy and accessible way of understanding the significance that Polyvagal Theory has to clinical work.

The Creative Toolkit for Working with Grief and Bereavement Claudia Coenen, 2020-05-21 The one book you need to help your grieving clients move from heartache to hope. - Heather Stang Understanding loss and its effects is integral to effective counseling and support in the treatment of grief. This book is both a guide to the key theories of bereavement, and a practical workbook that can be used with clients to help them understand and work through their grief in a positive, transformative way. Divided into two parts, the first section presents current models of grief used by thanatologists, and advice on when to apply them, these models provide a springboard to deepen the conversation with clients, allowing them to discover insights, consider memories and express their pain. In the second part of the book, creative exercises encourage clients to engage with their stories and actively apply their discoveries to their own healing. Offering a straightforward guide to bereavement models and therapeutic approaches, with photocopyable exercises and worksheets, *The Creative Toolkit for Working with Grief and Bereavement* is a valuable resource for information on grief and how to help grieving clients, and an invitation to explore creative possibilities for healing.

The Somatic Internal Family Systems Therapy Workbook Susan McConnell, 2025-01-07 The companion workbook to Somatic Internal Family Systems Therapy—a practical guide to the 5 pillars of embodied IFS for trauma therapists, Somatic Experiencing™ practitioners, and mental health healers With embodied exercises, foundational knowledge, and practical guidance, The Somatic Internal Family Systems Therapy Workbook shows therapists and clinicians how to embody the five practices of Somatic IFS: somatic awareness, conscious breathing, radical resonance, mindful movement and attuned touch. Each works together to facilitate trauma healing with clients and build embodied safety, integrate unresolved harm, and develop the ability to name, process, and understand emotional and somatic sensations. The workbook opens by inviting the therapist to explore their own Internal System, offering an embodied approach to experiencing the model. Chapter 1 explores and explains foundational concepts like somatics; embodiment; Parts; Self; and the cultural influences that shape and shift our embodied experiences. Chapters 2 - 6 move into theoretical grounding, clinical applications, and practical exercises for each of the five principles. They offer tools to: Develop clients' ability to name, describe, and convey sensations Recognize and track for signs of client overwhelm Work with Parts that fear body awareness Understand the purpose and clinical benefits of conscious breathing Restore the Embodied Self Explore therapeutic shifts from doing to to being with clients Heal attachment wounds Integrate mindful movement into healing developmental trauma Understand and practice attuned touch Each practice is designed to be used whenever it will be of benefit: the tools and exercises are non-linear and adaptable, and aren't limited by a prescriptive sequence. The workbook also explores links between current psychotherapeutic practice and ancient healing modalities, grounding SIFS in a larger web of effective somatic trauma healing and embodiment approaches.

Keine Angst, Mama! Jeannine Mik, Sandra Teml-Wall, 2021-05-10 Die Gefühle hinter dem Stress erkennen »Deine Kinder brauchen dich als aufrichtige Erwachsene. Auch und gerade dann, wenn es schwierig wird!« Im Alltag mit Kindern begegnen Eltern vielfältige Angstsituationen. Angst vor Verletzungen, vor Fehlern, vor der Zukunft. Um diese gut zu bewältigen, geben die Bestsellerautorinnen Jeannine Mik und Sandra Teml-Jetter in ihrem Buch Reflexionsimpulse sowie Soforthilfen für den Umgang mit Furcht und Panik an die Hand. So können Eltern erkennen, dass sie mit diesen Herausforderungen nicht alleine sind und lernen: •das eigene Handeln und Erziehen zu reflektieren, •Ängste als Ratgeber zu betrachten, •die eigenen Gefühle und die der anderen nicht zu verleugnen, •ein selbstbewusstes Standing im Hier und Jetzt einzunehmen. Die Autorinnen zeigen, dass wir nur die Eltern sein können, die wir wirklich sein wollen, wenn wir wissen, welche Gedanken, Zweifel und inneren Einstellungen uns und unsere Art zu erziehen leiten. Sie ermöglichen einen neuen Blick auf Elternsorgen, der zeigt, wie die eigenen Lebenserfahrungen uns prägen und in welchem Zusammenhang negative Gefühle und Erziehungsstile stehen. So kann es gelingen, trotz der Angst klar zu handeln und Kinder achtsam zu begleiten.
