

# Dunn And Dunn Learning Styles

**Christine Mangino**

**Teaching Students Through Their Individual Learning Styles** Rita Dunn, Kenneth J. Dunn, 1978

*Synthesis of the Dunn and Dunn Learning-style Model Research* Rita Stafford Dunn, Armin Paul Thies, Andrea Honigsfeld, Learning Styles Network (National Association of Secondary School Principals), St. John's University (New York, N.Y.). Center for the Study of Learning and Teaching Styles, 2001

*Practical Approaches to Using Learning Styles in Higher Education* Rita Dunn, Shirley A. Griggs, 2000-04-30 Dunn and Griggs challenge the traditional instructional process of lecture/discussion in college classroom and describe the theory, practice, and research that support a wider variety of approaches to better accommodate the learning-style preferences of each student. Twenty-five practitioners from varied backgrounds and disciplines, representing 14 colleges and universities, outline alternative strategies they use with diverse students in their institutions of higher education. Some of these practitioners have been using learning-style for decades. Others have conducted research to test the various tenets of the Dunn and Dunn Learning- Style Model, and a few, only for the past five years, have begun providing instructional strategies that are congruent with their students' preferences. A road map is provided for college faculty to assist them in moving toward accommodating students' learning-style strengths by comparing the major theories of learning styles that range from uni- to multi-dimensional in scope. Strategies include: identifying and administering valid and reliable instruments for assessing college students' learning styles, interpreting assessment results so that each student becomes aware of his/her own strengths and is provided a computer-generated prescription for improving their study skills and successfully completing assignments, designing instruction to respond to both global and analytic students' processing styles, developing course content and materials to accommodate the learning-style preferences of college students, and evaluating the impact of learning-styles-based instruction.

*Differentiating Instruction for At-Risk Students* Rita Dunn, Andrea Honigsfeld, 2009 When the activities described herein are introduced to students whose learning styles they match, most will demonstrate strong abilities to learn and remember new and difficult content within the first four months of beginning\_ if not earlier. This book is written to prevent more children from becoming at risk and to help those who already have fallen behind their classmates and do not enjoy school.

Effects of Dunn and Dunn Learning Styles Model on Achievement and Motivation Carma Daouk, 2013

Synthesis of the Dunn and Dunn Learning-style Model Research Rita Dunn, Shirley A. Griggs, 2003

**Learning Styles and the Nursing Profession** Rita Dunn, Shirley A. Griggs, 1998 Because students learn in different ways, teachers adapt curricula to diverse learning styles. This book presents state-of-the-art research and information on how to use learning-style based instruction in teaching and professional development for nurse and allied health educators.

SYNTHESIS OF THE DUNN AND DUNN LEARNING STYLE MODEL... R. DUNN, 2003

**International Handbook of Personality and Intelligence** Donald H. Saklofske, Moshe Zeidner, 1995-05-31 In this groundbreaking handbook, more than 60 internationally respected authorities explore the interface between intelligence and personality by bringing together a wide range of potential integrative links drawn from theory, research, measurements, and applications.

**A Statistical Analysis of the Dunn and Dunn Learning Style with Adult Populations** Christine Mangino, 2009 The purpose of this investigation was to conduct a quantitative synthesis of correlational research that focused on the Dunn and Dunn Learning-Style Model and was concerned with adult populations. A total of 8,661 participants from the 47 original investigations provided 386 individual effect sizes for this meta-analysis.

**The History and Future of the Dunn and Dunn Learning-style Model** Sharon R. Parris, 2008 Examines the discrepancy between the Dunn and Dunn Learning-Style Model's quantifiable success and its level of acceptance in educational practice.

Understanding Learning Styles Jeanna Sheve, Kelli Allen, Vicki Nieter, 2010-06-01 Enhanced by surveys, practical ideas, and suggestions for designing lessons, offers teachers help in determining the learning style of each student and the appropriate delivery methods to best teach their students and address as many of their intelligences as possible.

*Research Linking Teacher Preparation and Student Performance* Edith M. Guyton, Julie Rainer Dangel, 2004-11-10 The case studies, research, and projects presented here strike at the very heart of effective teaching. The specific practices to improve student performance outlined here will spark classroom discussion and improve teacher practice.

**Cultural Learning Styles in Language Education** Lynne N. Li, 2022-05-25 This book presents a nuanced look at the relationship between language learning styles and culture to illuminate how these important constructs are understood, employed and play out in the real world. Through the lens of different learning style dimensions—cognitive, affective, process-centred, environment-centred and cultural—Li unpacks and examines the commonly accepted tensions between learning styles, culture, teacher assumptions and teaching approaches. With a focus on Asian learning styles and Chinese learners, Li addresses the past and current debates and reconceptualises the roles and tensions between students' learning, students' cultural backgrounds and teaching styles. Li adeptly navigates this controversial arena to demystify preconceptions and provide avenues for innovative and effective classroom practices in language teaching. Ideal for pre-service ESL/EFL

teachers, researchers and scholars, this book bridges the gap between research and practice on culture and language learning in the classroom.

**How to Implement and Supervise a Learning Style Program** Rita Dunn Dunn,1996-04-01 This how-to book is for supervisors interested in understanding, implementing, and guiding staff in the proven educational methods of learning styles. Learning how to learn is what the learning styles approach is all about. Advocate Rita Dunn explains learning styles and how they develop and describes how to teach students with diverse learning styles. International studies and testimonials indicate statistically higher standardized achievement test scores for students who are taught to use their learning style strengths and yield evidence that this approach makes a difference for all kinds of learners. As an award-winning educator and a supervisor, Dunn offers tips on how to introduce learning styles to your staff and students, and how to respond to the cognitive, physiological, and sociological aspects of learning that influence the students in your school and district.

**Improved Test Scores, Attitudes, and Behaviors in America's Schools** Thomas C. DeBello,Rita Dunn,1999-10-30 Education is a profession in which billions of federal dollars have been spent to reduce academic underachievement—particularly for minority children from poverty homes. Few funded programs have reduced failure on standardized achievement tests. Despite either repetition or innovation, most children who fail do not perform substantially better the next time around. On the other hand, practitioners who have used the Dunn and Dunn learning-styles approaches have reported statistically higher standardized achievement test scores among average, poorly achieving, and special education students. This book is based on the practical, diverse experiences of more than thirty different supervisors throughout the United States. Representing a variety of urban and suburban locations with diverse student populations, each supervisor was able to obtain significantly higher standardized achievement test scores for his or her student populations.

**Understanding Learning Styles** Kelli Allen,Jeanna Sheve,Vicki Nieter,2010 Students have different learning styles! Understanding Learning Styles helps teachers determine the learning style of each student and the appropriate delivery methods to target and address the needs of as many of the intelligences as possible. Different learning-styles are presented in this professional book that helps teachers determine how best to teach their students. Surveys, practical ideas, and suggestions for designing lessons that incorporate multiple learning styles are provided to show teachers how to differentiate instruction. This resource is aligned to the interdisciplinary themes from the Partnership for 21st Century Skills. 208pp.

**A Comparative Study of Learning Styles** Antoinette Skoney,Molly Ullrich,State University College at Buffalo. Department of Elementary Education and Reading,1994 Buffalo State College Master's project in Elementary Education and Reading, 1994.

**Concerning Styles** Jacob Klitmøller,2012

*The Complete Guide to the Learning Styles Inservice System* Rita Dunn, Kenneth J. Dunn, 1999 Renowned experts on learning styles, Drs. Rita and Kenneth Dunn show staff developers how to use teachers' learning styles in in-service programs so they can model alternative strategies for their students. Step-by-step procedures help in-service coordinators assist in retraining professional teachers.
