Online Reading Comprehension Strategies Among General and Special Education Elementary and Middle School Students Hsin-Yuan Chen,2009

Reading Instruction for Students who are at Risk Or Have Disabilities William D. Bursuck,Mary Damer,2007 Organized according to the Reading First categories of reading development and instruction as presented in the report of the National Reading Panel, this exciting and timely new text presents teaching strategies for children at-risk, including children of poverty, children for whom English is not their primary language, and children with learning and behavioral disabilities. These are the children No Child Left Behind challenges teachers to serve more effectively. The book is more than a list of teaching strategies that are scientifically-validated; the scientifically-validated practices included are integrated into a systematic teaching process that stresses the use of student outcome data within authentic classroom contexts to guide practice. The teaching strategies have been field tested with at-risk children in both rural and urban teaching settings. Most of the strategies have resulted from work the authors did in their recent four-year federally-funded model-demonstration grant in which they have implemented an extensive reading problem prevention model in grades K-3 in three inner-city schools. Thus, the teaching strategies in the book are ones that the authors implemented every day with at-risk children, not just findings from research articles. Features of this First Edition Include: Content organized around the five components validated by the National Reading Panel: phonemic awareness, phonics, fluency, vocabulary, and comprehension. Readers learn how to use DIBELS and other curriculum-based assessment results for early identification of children at risk of reading failure and to monitor student progress. A unique feature is using DIBELS assessments to pinpoint student skill development as they acquire alphabetic principle. Accompanying DVD shows teacher explicitly teaching letter sound recognition, regular word decoding, sight words, multisyllable word reading, passage reading, vocabulary, and comprehension. Text explains how to use Differentiated Instruction to maximize learning for all students. Specific strategies are detailed for implementing Response To Intervention (RTI) multi-tier instruction during the reading block. Examines building vocabulary knowledge

through direct and indirect teaching strategies. Comprehension strategies identified by the National Reading Panel that help students derive meaning from text are emphasized. Strategies for individualizing instruction for adolescents and children who are bilingual and/or ESL are included within each chapter. Effective strategies for managing classroom behavior, including instruction groups are provided so that student behavior does not interfere with reading instruction.

Meeting the Challenge of Adolescent Literacy Mark W. Conley, 2008-03-26 Prominent researchers analyze existing knowledge on adolescent literacy, examine the implications for classroom instruction, and offer specific goals for future research. Particular attention is given to how teaching literacy across disciplines can improve students' content-area learning, and the book includes chapters dedicated to literacy in math and science classrooms. --from publisher description.

Language Arts and Literacy in the Middle Grades Margaret J. Finders,Susan Hynds,2007 From two prominent scholars in the field of literacy comes a middle school teacher preparation text that offers important innovations not usually found in traditional secondary methods texts. The book is rife with concrete examples of teaching literacy and language arts in middle school contexts, but is relevant to preservice and practicing teachers at middle and high school levels. This edition includes a stronger focus on culturally relevant pedagogy and the needs of English Language Learners as well as a Standards in Practice feature, which helps teachers incorporate state and national standards in teaching and planning. The book is based on a teacher-as-inquirer model. A fieldwork component provides tools for classroom inquiry and reflection in each chapter. The book is timely and relevant, with classroom cases written by experienced and new middle school language arts teachers.

The Right to Literacy in Secondary Schools Suzanne Plaut,2009 This inspirational resource challenges educators to view adolescent literacy as a “civil right” that enables students to understand essential content and to develop as independent learners. Edited by the Vice President of Education at the Public Education & Business Coalition (PEBC), a nonprofit that is nationally known for its expertise in literacy and professional development, the book is a call to action and a practical guide for reform-minded schools and districts, and for teachers seeking to help all adolescent learners achieve at high levels. We are impacted by literature during our infancy, childhood, adolescence, and adulthood. This work includes information from specialists in the field who discuss the influence of popular culture, media, and technology on literacy. Together, they offer a comprehensive outline of the study and practice of literacy in the United States. The first volume, *Early Literacy*, covers infancy and early childhood. Topics such as oral language development, phonics, beginning writing, storytelling and drama, and instruction for second language learners and special needs children are all addressed. Volume two, *Childhood Literacy*, includes information on popular approaches to reading instruction, children's literature, spelling, computer and instructional technology, book clubs, and after-school programs. *Adolescent Literacy*, the third volume, covers supplementary literacy programs for at-risk adolescents, literacy tutors, young adult literature, gender issues, digital literacy, and blogging. Finally, volume four, *Adult Literacy*, offers chapters on adult basic education, programs for English language learners, and workplace literacy.--publisher's description.
