**House of Leaves** Mark Z. Danielewski, 2000-03-07 "A novelistic mosaic that simultaneously reads like a thriller and like a strange, dreamlike excursion into the subconscious." —The New York Times Years ago, when House of Leaves was first being passed around, it was nothing more than a badly bundled heap of paper, parts of which would occasionally surface on the Internet. No one could have anticipated the small but devoted following this terrifying story would soon command. Starting with an odd assortment of marginalized youth -- musicians, tattoo artists, programmers, strippers, environmentalists, and adrenaline junkies -- the book eventually made its way into the hands of older generations, who not only found themselves in those strangely arranged pages but also discovered a way back into the lives of their estranged children. Now this astonishing novel is made available in book form, complete with the original colored words, vertical footnotes, and second and third appendices. The story remains unchanged, focusing on a young family that moves into a small home on Ash Tree Lane where they discover something is terribly wrong: their house is bigger on the inside than it is on the outside. Of course, neither Pulitzer Prize-winning photojournalist Will Navidson nor his companion Karen Green was prepared to face the consequences of that impossibility, until the day their two little children wandered off and their voices eerily began to return another story -- of creature darkness, of an ever-growing abyss behind a closet door, and of that unholy growl which soon enough would tear through their walls and consume all their dreams.

Soundtracked Books from the Acoustic Era to the Digital Age Justin St. Clair,2022-06-15 Offering both a short history and a theoretical framework, this book is the first extended study of the soundtracked book as a media form. A soundtracked book is a print or digital publication for which a recorded, musical complement has been produced. Early examples were primarily developed for the children's market, but by the middle of the twentieth century, ethnographers had begun producing book-and-record combinations that used print to contextualize musical artifacts. The last half-century has witnessed the rapid expansion of the adult market, including soundtracked novels from celebrated writers such as Ursula K. Le Guin, Kathy Acker, and Mark Z. Danielewski. While often dismissed as gimmicks, this volume argues that soundtracked books represent an interesting case study in media consumption. Unlike synchronous multimedia forms, the vast majority of soundtracked books require that audience activity be split between reading and listening, thus defining the user experience and often shaping the content of singing books as well. Mapping the form's material evolution, this book charts a previously unconsidered pathway through more than a century of recording formats and packaging strategies, emphasizing the synergies and symbioses that characterize the marriage of sound and print. As such, it will be of value to scholars and postgraduate students working in media studies, literary studies, and sound studies.

Trauma in American Popular Culture and Cult Texts, 1980-2020 Sean Travers,2022-10-13 This book examines trauma in late twentieth- and twenty-first century American popular culture. Trauma has become a central paradigm for reading contemporary American culture. Since the early 1980s, an extensive range of genres increasingly feature traumatised protagonists and traumatic events. From traumatised superheroes in Hollywood blockbusters to apocalyptic-themed television series, trauma narratives abound. Although trauma is predominantly associated with high culture, this project shows how popular culture has become the most productive and innovative area of trauma representation in America. Examining film, television, animation, video games and cult texts, this book develops a series of original paradigms through which to understand trauma in popular culture. These include: popular trauma texts' engagement with postmodern perspectives, formal techniques termed 'competitive narration', 'polynarration' and 'sceptical scriptotherapy', and perpetrator trauma in metafictional games.

Revolutionary Leaves Sascha Pöhlmann,2013-01-16 Mark Z. Danielewski is routinely hailed as the most exciting author in

contemporary American literature, and he is celebrated by critics and fans alike. *Revolutionary Leaves* collects essays that have come out of the first academic conference on Danielewski's fiction that took place in Munich in 2011, which brought together younger and established scholars to discuss his works from a variety of perspectives. Addressing his major works *House of Leaves* (2000) and *Only Revolutions* (2006), the texts are as multifaceted as the novels they analyze, and they incorporate ideas of (post)structuralism, modernism, post- and post-postmodernism, philosophy, Marxism, reader-response criticism, mathematics and physics, politics, media studies, science fiction, gothic horror, poetic theory, history, architecture, mythology, and more. Contributors: Nathalie Aghoro, Ridvan Askin, Hanjo Berressem, Aleksandra Bida, Brianne Bilsky, Joe Bray, Alison Gibbons, Julius Greve, Sebastian Huber, Sascha Pöhlmann, and Hans-Peter Söder.
