Peter Meyers

Reimagining Science Fiction Gary Westfahl, 2025-10-31 In the first decades of the twenty-first century, science fiction literature has been transformed in many ways, as the genre has reacted to the dominating influence of films, television, and video games, the growing popularity of fantasy, the rise of young adult science fiction and graphic novels, the impact of the internet and social media, and the increasing diversity of the authors, characters, and often non-Western settings. The essays making up this volume address these and other changes in two ways. Some consider new critical approaches to science fiction in response to changing circumstances, including analyses of how evolutionary psychology explains today's science fiction, the emerging subgenre of cli-fi exploring the effects of climate change, the use of science fiction in different areas of the college curriculum, and a statistical method for identifying works of science fiction. Others examine significant new authors such as Nalo Hopkinson, Charles Stross, Paolo Bacigalupi, Suzanne Collins, Mira Grant, John Sandford, and David Mura. Contributors include science fiction author Howard V. Hendrix and experts in the fields of Chinese studies, gender studies, literature, philosophy, and religion.

Movies in the Age of Obama David Garrett Izzo, 2014-08-26 The historic election of Barack Obama to the presidency of the United States had a significant impact on both America and the world at large. By voting an African American into the highest office, those who elected Obama did not necessarily look past race, but rather didn't let race prevent them for casting their ballots in his favor. In addition to reflecting the changing political climate, Obama's presidency also spurred a cultural shift, notably in music, television, and film. In *Movies in the Age of Obama: The Era of Post-Racial and Neo-Racist Cinema*, David Garrett Izzo presents a varied collection of essays that examine films produced since the 2008 election. The contributors to these essays comment on a number of films in which race and "otherness" are pivotal elements. In addition to discussing such films as *Beasts of the Southern Wild*, *Black Dynamite*, *The Blind Side*, *The Butler*, *Django Unchained*, *The Help*, and *Invictus*, this collection also includes essays that probe racial elements in *The Great Gatsby*, *The Hunger Games*, and *The Mist*. The volume concludes with several essays that examine the 2013 Academy Award winner for best picture, *12 Years a Slave*. Though Obama's election may have been the main impetus for a resurgence of black films, this development is

a bit more complicated. Moviemakers have long responded to the changing times, so it is inevitable that the Obama presidency would spark an increase in films that comment, either subtly or overtly, on the current cultural climate. By looking at the issue these films address, *Movies in the Age of Obama* will be of value to film scholars, of course, but also to those interested in other disciplines, including history, politics, and cultural studies.

From a Farouche Adolescent to an Important Part of Society. The Psychosocial Development of Katniss Everdeen In "The Hunger Games" Trilogy Nicole Eismann, 2015-12-29 Bachelorarbeit aus dem Jahr 2014 im Fachbereich Didaktik für das Fach Englisch - Literatur, Werke, Note: 1,3, Rheinische Friedrich-Wilhelms-Universität Bonn (Institut für Anglistik, Amerikanistik und Keltologie), Sprache: Deutsch, Abstract: The three books of Suzanne Collins' *The Hunger Games* trilogy have been published between 2008 and 2010 and tell the story of Panem, a North-American state of a dystopian future, and how a slowly upcoming rebellion, led by the protagonist Katniss Everdeen, helped the people to overcome the political oppression of a totalitarian government. Throughout the first book, which appeared under the global title *The Hunger Games*, the reader gets to know the main characters and the political and social situation in Panem, with the central problem of the *Hunger Games* as omnipresent fear for the entire society in the twelve districts. At the end of the first novel, after taking part in and winning the *Hunger Games* herself, the protagonist triggers more or less unwillingly a couple of happenings that slowly lead to the rebellious break out in the second book, which is appropriately called *Catching Fire*, since it thematises the upcoming

rebellious actions and how the Capitol tries to stop the rising number of rebels throughout the country. The entire last volume of the trilogy, *Mockingjay*, deals exclusively with the revolutionary actions and the slow fall of Panem's Capitol and the totalitarian system. The main target group of Collins' trilogy are young adult readers, however, it is also able to attract adults due to its complex plot and the profound representation of the topic. Also, *The Hunger Games* trilogy is a hybrid novel, which cannot be assigned to one single genre as it includes aspects of a dystopia, romance and war literature; predominantly, however, it is a so called bildungsroman with two main focusses: On the one hand, there is a central socio-political statement, which has been created "very intentionally [...] to characterize current and past world events", according to the author herself. On the other hand, the novel deals intensively with the topic of growing up by highlighting both, normal psychological issues of teenagers, e.g. the first love, and the special circumstances, in which Katniss Everdeen grows up.
