*Narrative Hermeneutics, History, and Rhetoric* ,2024-12-23 David P. Moessner has pioneered the study of early Christian narrative both through the investigation of the principles and methods of good storytelling outlined by ancient authors, and through the demonstration that Christians, especially the author of Luke-Acts, used these principles and methods in crafting their own stories. The contributors to this volume recognize Moessner's enormously valuable research and warm collegiality with twenty-one essays on narrative hermeneutics, characterization, genre, intertextuality, and reception history. Several focus fittingly on Luke and Acts, while others press the implications of Moessner's work for comprehension of the wider world of Jewish, Christian, and Greco-Roman storytelling.

**Analytical Lexicon of the Greek Bible** Roman Mazur, Roman Bogacz, Andrzej Gieniusz, 2023-05-15 The basic forms of the Greek Bible put in alphabetical order create the lexicon's entries. Every entry has its English translation along with the number of occurrences of the Greek term in the Septuagint, parallel texts and in the New Testament with the sum of all occurrences in all the Bible. At the end of each entry the lexical forms of it are given and listed in alphabetical order with a

grammatical analysis and occurrences throughout the Scriptures. In the dictionary, as it is in the concordance, four colours are given a new category of distinction. They separately characterize the texts and references of the Septuagint (green), parallel texts (red) and the New Testament (blue). The same colours are attributed to the number of appearances of the terms in the text. The terms are presented in the Dictionary firstly in basic form, then in all lexical forms arranged in alphabetical order.
