Análisis de políticas públicas Jean-Baptiste Harguindéguy, 2015-09-03 El análisis de políticas públicas es hoy en día una asignatura consolidada en España. Sin embargo, todavía faltaba un manual que recogiese la información disponible de forma didáctica y atractiva. Éste es el reto de la presente obra, pensada por y para la docencia y la investigación básica. En *Análisis de Políticas Públicas* el lector encontrará un repaso completo de los fundamentos clásicos de esta materia. En paralelo, tendrá acceso a los grandes debates teóricos contemporáneos que estructuran este ámbito. Finalmente, podrá disfrutar de una serie de ejercicios especialmente diseñados para poner en práctica los conocimientos adquiridos a través de casos prácticos, simulaciones y videojuegos serios. Este triple objetivo se fundamenta en una presentación clara, sin jerga y totalmente actualizada de la disciplina. En estas páginas se dedica un espacio a todos los que han aportado una piedra al edificio intelectual que es el estudio de la acción pública. Pensado como una plataforma de intercambio intelectual, este libro presenta los elementos más relevantes del estudio de la acción pública, por lo que es de gran utilidad tanto para el alumno como para el investigador novel y el simple ciudadano.

World Order Henry Kissinger, 2015-09 a conviction that has guided its policies ever since. Now international affairs take place on a global basis, and these historical concepts of world order are meeting. Every region participates in questions of high policy in every other, often instantaneously. Yet there is no consensus among the major actors about the rules and limits guiding this process, or its ultimate destination. The result is mounting tension. Grounded in Kissinger's deep study of history and his experience as National Security Advisor and Secretary of State, *World Order* guides readers through crucial episodes in recent world history. Kissinger offers a unique glimpse into the inner deliberations of the Nixon administration's negotiations with Hanoi over the end of the Vietnam War, as well as Ronald Reagan's tense debates with Soviet Premier

World Order by Henry Kissinger - A 30-minute Instaread Summary Instaread Summaries, 2014-10-15 PLEASE NOTE: This is a summary of the book and NOT the original book. World Order by Henry Kissinger - A 30-minute Instaread Summary Inside this Instaread Summary: • Overview of the entire book • Introduction to the important people in the book • Summary and analysis of all the chapters in the book • Key Takeaways of the book • A Reader's Perspective Preview of this summary: Chapter 1 In many early societies, order was created and maintained by central leadership rather than through the self-rule of states. Leaders in China and Islam fought for power. Other regions experienced chaos and frustration as they tried to establish order. Europe uniquely allowed different regions within the whole to rule themselves. Leaders felt this would allow their people to celebrate and balance their own interests. The fall of the Roman Empire shattered the rules that Roman citizens had always lived by. Romans began to focus on Christianity, which was governed by the government and the church. Charlemagne, Roman emperor in 800, vowed to defend the church at all cost. The Empire disintegrated under his rule due to several civil wars. The emperor of Rome was elected by princes in unfair elections, and there was a constant struggle for power between the Pope and the emperor, making the concept of order seem completely out of reach. Prince Charles of Habsburg became Holy Roman emperor after Charlemagne. Charles focused on protecting and exalting the Roman Catholic Church. He was unable to do so when Protestantism swept across the region. By the fifteenth century, European explorers began traveling in search of wealth and fame. Soon, an increased focus on the individual and reason rather than the Church spread through Europe. As the Thirty Years' War raged on between Catholics and Protestants, France appointed Cardinal de Richelieu as the chief minister of France. Richelieu wanted to use the balance of power to help structure foreign policy. He believed that the divisions within Europe were important and focused on centralizing France's government to maintain a balance of power...

World Order Henry Kissinger, 2015 Blending historical insight with prognostication, 'World Order' is a meditation from one of our era's most prominent diplomats on the 21st century's ultimate challenge: how to build a shared international order in a world of divergent historic perspectives, violent conflict, proliferating technology and ideological extremism.

Mis memorias Henry Kissinger, 1979

DIPLOMACIA Henry Kissinger, 2010-09-22 En este polémico y monumental libro, Henry Kissinger explica qué es la diplomacia y nos muestra su propia interpretación de la historia. Sus observaciones secretas sobre grandes acontecimientos y sus retratos íntimos de líderes mundiales de De Gaulle a Nixon o Gorbachov, basados en el trato personal y la experiencia, proporcionan al lector una visión poco frecuente de la alta diplomacia, que demuestra un profundo conocimiento histórico, unas indudables dotes para la ironía y una excepcional comprensión de las fuerzas que unen y separan a las naciones.

An Analysis of Henry Kissinger's World Order Bryan Gibson,2017-07-05 Henry Kissinger's 2014 book *World Order: Reflections on the Character of Nations and the Course of History* not only offers a summary of thinking developed throughout a long and highly influential career-it is also an intervention in international relations theory by one of the most famous statesmen of the twentieth century. Kissinger initially trained as a university professor before becoming Secretary of State to President Richard Nixon in 1973 - a position in which he both won the Nobel Peace Prize and was accused of war crimes by protesters against American military actions in Vietnam. While a controversial figure, Kissinger is widely agreed to have a unique level of practical and theoretical expertise in politics and international relations - and *World Order* is the culmination of a lifetime's experience of work in those fields. The product of a master of the critical thinking skill of interpretation, *World Order* takes on the challenge of defining the worldviews at play in global politics today. Clarifying precisely what is meant by the different notions of 'order' imagined by nations across the world, as Kissinger does, highlights the challenges of world politics, and sharpens the focus on efforts to make surmounting these divisions possible. While Kissinger's own reputation will likely remain equivocal, there is no doubting the interpretative skills he displays in this engaging and illuminating text.

Henry Kissinger Foreign Policy E-book Boxed Set Henry Kissinger,2013-09-24 This ebook boxed set includes the following 3 books by Henry Kissinger, detailing America's approach to foreign policy. *Crisis: By drawing upon hitherto unpublished transcripts of his telephone conversations during the Yom Kippur War (1973) and the last days of the Vietnam War (1975), Henry Kissinger reveals what goes on behind the scenes at the highest levels in a diplomatic crisis. Does America Need A Foreign Policy?: With a new afterword by the author that addresses the situation in the aftermath of September 11, this thoughtful and important book, written by America's most famous diplomatist, explains why we urgently need a new and coherent foreign policy and what our foreign policy goals should be in this new millennium. In seven accessible chapters, Kissinger provides a crystalline assessment of how the United States' ascendancy as the world's dominant presence in the twentieth century may be effectively reconciled with the urgent need in the twenty-first century to achieve a bold new world order. Diplomacy: Moving from a sweeping overview of history to blow-by-blow accounts of his negotiations with world leaders, Henry Kissinger describes how the art of diplomacy has created the world in which we live, and how America's approach to foreign affairs has always differed vastly from that of other nations. This is vital reading for anyone concerned with the forces that have shaped our world today and will impact upon it tomorrow.*

In Umbra Lui Kissinger Greg Gardin,2020-08-07 Pentru a înțelege criza Americii contemporane - războaiele fără sfârșit

purtate peste granițe și polarizarea politică din această țară –, trebuie să îl înțelegem pe Henry Kissinger, argumentează cunoscutul istoric Greg Grandin. Pornind de la lucrări semnate de Kissinger, precum și de la înregistrări secrete și documente de stat, multe dintre ele recent declassificate, autorul arată cum cel mai important consilier de politică externă al lui Nixon a pus umărul la reînvierea unei versiuni militarizate a excepționalismului american centrat pe o președinție imperialistă – chiar în timp ce prezida peste înfrângerea din Vietnam și peste un război dezastruos, secret și ilegal în Cambodgia. Crezând că realitatea poate fi supusă prin puterea voinței sale, că intuiția este mai importantă în stabilirea politicii decât faptele reale și promițând că greșelile trecutului nu vor fi niciodată un obstacol în calea acțiunilor îndrăznețe viitoare, Kissinger a pregătit terenul pentru ascensiunea idealiștilor neoconservatori care au târât America în războaiele lipsite de sens din Afganistan și Irak. Grandin reușește mai mult decât o simplă relatare concentrată fie asupra crimelor, fie asupra realizărilor lui Kissinger, oferind o interpretare nouă și convingătoare a influenței încă actuale a acestuia cu privire la modul în care Statele Unite își văd rolul în lumea de azi. „O analiză detaliată a politicii externe americane în umbra lui Kissinger până în zilele noastre.”

Henry Kissinger Heather Lehr Wagner, 2013 Surveys the life of Henry Kissinger and discusses how as National Security Advisor and Secretary of State he influenced American foreign policy.
