The Iapetus High Fantasy Role Playing Game Edmund Sim,

Furry Fandom ,

Dungeons and Dragons and Philosophy Jon Cogburn, 2012-09-11 This volume will convince readers that the swift ascent of the tabletop role-playing game Dungeons and Dragons to worldwide popularity in the 1970s and 1980s is “the most exciting event in popular culture since the invention of the motion picture.” *Dungeons and Dragons and Philosophy* presents twenty-one chapters by different writers, all D&D aficionados but with starkly different insights and points of view. It will be appreciated by thoughtful fans of the game, including both those in their thirties, forties, and fifties who have rediscovered the pastime they loved as teenagers and the new teenage and college-student D&D players who have grown up with gaming via computer and console games and are now turning to D&D as a richer, fuller gaming experience. The book is divided into three parts. The first, “Heroic Tier: The Ethical Dungeon-Crawler,” explores what D&D has to teach us about ethics and about how results from the philosophical study of morality can enrich and transform the game itself. Authors argue that it’s okay to play evil characters, criticize the traditional and new systems of moral alignment, and (from the perspective of those who love the game) tackle head-on the recurring worries about whether the game has problems with gender and racial stereotypes. Readers of *Dungeons and Dragons and Philosophy* will become better players, better thinkers, better dungeon-masters, and better people. Part II, “Paragon Tier: Planes of Existence,” arouses a new sense of wonder about both the real world and the collaborative world game players create. Authors look at such metaphysical questions as what separates magic from science, how we express the inexpressible through collaborative storytelling, and what the objects that populate Dungeons and Dragons worlds can teach us about the equally fantastic objects that surround us in the real world. The third part, “Epic Tier: Leveling Up,” is at the crossroads of philosophy and the exciting new field of Game Studies. The writers investigate what makes a game a game, whether D&D players are artists producing works of art, whether D&D (as one of its inventors claimed) could operate entirely without rules, how we can overcome the philosophical divide between game and

story, and what types of minds take part in D&D.

The Fantasy Role-Playing Game Daniel Mackay,2001-03-14 This text provides the framework for a critical model useful in understanding the art - especially in terms of aesthetics - of role-playing games. It also serves as a contribution to an analysis of a mostly unrecognized and newly developing art form.

The Official Teenage Mutant Ninja Turtles Treasury Stanley Wiater,1991-03-13 With over 600 licensed Teenage Mutant Ninja Turtles products available today, how is the aspiring collector to know what in this green sea of Turtleabilia is a true find? What are the whimsical items unique to the Turtles? How is a collector to discern the “must haves” from the merely interesting, or worse, the fakes? Easy. Use *The Official Teenage Mutant Ninja Turtle Treasury*, the ultimate collector’s guide for all those afflicted with “Turtle fever.” Lavishly illustrated with photos of the many products included, Turtle creators Peter Laird and Kevin Eastman, together with input from their marketing experts, have compiled a true treasury of what they believe will be the most valuable and collectible items of all the Turtles merchandise being produced. They have added personal comments on their own favorite products, plus the story of how the Turtles and their world began. *The Official Teenage Mutant Ninja Turtle Treasury* has an in-depth section on the comic books that started the green tide, and tips on how to know when you have a possible gold mine—such as one of the first comic books in mint condition. It all adds up to give fans the real inside story of the incredible phenomenon of Turtlemania. Many of the items included herein can be collected for fun, and many are potentially worth quite a bit—but *The Official Teenage Mutant Ninja Turtle Treasury* puts them all in one place, to help both the Turtle lover and the serious collector alike.

Old Ones Kevin Siembieda,1996-06 Huge adventure/sourcebook. Nine pre-made adventures. 34 towns and cities (including 21 forts) mapped and described. Major shops, production centers, temples and notable personalities included with descriptions. Maps and describes all the cities in Palladium's entire Timiro Kingdom. *Old Ones* are the most powerful forces ever to have existed in the Palladium game Multi-verse. Palladium's Kevin Siembieda, named them as an homage to the characters of the same name by H. P. Lovecraft.

Rifts Chaos Earth Kevin Siembieda,2006-04

Monsters, Aliens, and Holes in the Ground, Deluxe Edition Stu Horvath,2023-10-10 A richly illustrated,

encyclopedic deep dive into the history of roleplaying games. When Gary Gygax and Dave Arneson released Dungeons & Dragons in 1974, they created the first roleplaying game of all time. Little did they know that their humble box set of three small digest-sized booklets would spawn an entire industry practically overnight. In *Monsters, Aliens, and Holes in the Ground*, Stu Horvath explores how the hobby of roleplaying games, commonly known as RPGs, blossomed out of an unlikely pop culture phenomenon and became a dominant gaming form by the 2010s. Going far beyond D&D, this heavily illustrated tome covers more than three hundred different RPGs that have been published in the last five decades. *Monsters, Aliens, and Holes in the Ground* features (among other things) bunnies, ghostbusters, soap operas, criminal bears, space monsters, political intrigue, vampires, romance, and, of course, some dungeons and dragons. In a decade-by-decade breakdown, Horvath chronicles how RPGs have evolved in the time between their inception and the present day, offering a deep and gratifying glimpse into a hobby that has changed the way we think about games and play. The deluxe edition will include a foil-stamped cover and slipcase with a cloth binding, a ribbon, gilded edges, and an 8.5x11-inch card stock poster of the regular edition.

The Superhero Book Gina Misiroglu, 2012-04-01 The ultimate compendium to everyone's favorite participants in the eternal battle between good and evil! Profiles of more than 1,000 mythic superheroes, icons, and their place in popular culture. Superhuman strength. Virtual invulnerability. Motivated to defend the world from criminals and madmen. Possessing a secret identity. And they even have fashion sense—they look great in long underwear and catsuits. These are the traits that define the quintessential superhero. Their appeal and media presence has never been greater, but what makes them tick? their strengths? weaknesses? secret identities and arch-enemies? *The Superhero Book: The Ultimate Encyclopedia of Comic-Book Icons and Hollywood Heroes* is the comprehensive guide to all those characters whose impossible feats have graced the pages of comic books for the past one hundred years. From the Golden and Silver Ages to the Bronze and Modern Ages, the best-loved and most historically significant superheroes—mainstream and counterculture, famous and forgotten, best and worst—are all here: The Avengers Batman and Robin Captain America Superman Wonder Woman Captain Marvel Spider-Man The Incredibles The Green Lantern Iron Man Catwoman Wolverine Aquaman Hellboy Elektra Spawn The Punisher Teen Titans The Justice League The Fantastic Four and hundreds of others. Unique in bringing together characters from Marvel, DC, and Dark Horse, as well as smaller independent houses, *The Superhero Book* covers the best-loved and historically significant superheroes across all mediums and guises, from comic book, movie, television, and graphic novels. With many photos and illustrations this fun, fact-filled tome is richly illustrated. A bibliography and extensive index add to its usefulness. It is the ultimate A-to-Z compendium of everyone's favorite superheroes, anti-heroes and their sidekicks, villains, love interests, superpowers, and modus operandi.
