Ralph Waldo Emerson

Ralph Waldo Emerson Peter S. Field, 2003 In this original and highly readable book, Peter S. Field explains how Ralph Waldo Emerson became the first democratic intellectual in American history. By focusing on his public career, Field contends that Emerson was a democrat in two senses: he single-handedly sought to create a vocation equal to his conviction that America represented the democratic promise of the western world; and as importantly, he acted the part of the democrat by attempting to bring culture to all Americans. Utterly disaffected with the self-satisfied Boston Brahmin establishment into which he had been born, he set forth through the nation in order to assume the role of conscience, critic, and gentle exhorter to the people. More poet than philosopher, Emerson demands to be understood as a public intellectual. Peter Field deftly portrays Emerson as he attempted to create himself—as a unique, irenic prophet to the American people.

As an adolescent America searched for its unique identity among the nations of the world, a number of thinkers and writers emerged eager to share their vision of what the American character could be. Among their leaders was Ralph Waldo Emerson, whose essays, lectures, and poems defined the American transcendentalist movement, though he himself disliked the term. Emerson advocates a rejection of fear-driven conformity, a total independence of thought and spirit, and a life lived in harmony with nature. He believes that Truth lies within each individual, for each is part of a greater whole, a universal “over-soul” through which we transcend the merely mortal. Emerson was extremely prolific throughout his life; his collected

writings fill forty volumes. This edition contains his major works, including *Nature*, the essays "Self-Reliance," "The American Scholar," "The Over-Soul," "Circles," "The Poet," and "Experience," and such important poems as "The Rhodora," "Uriel," "The Humble-Bee," "Earth-Song," "Give All to Love," and the well-loved "Concord Hymn." Includes a comprehensive glossary of names. Peter Norberg has been Assistant Professor of English at Saint Joseph's University in Philadelphia since 1997. A specialist in New England transcendentalism and the history of the antebellum period, he also has published on Herman Melville's poetry. He currently is writing a history of Emerson's career as a public lecturer.

The Topical Notebooks of Ralph Waldo Emerson Ralph Waldo Emerson, Ralph H. Orth, 1990 Published here for the first time are seven of Emerson's topical notebooks, which served as a source for his lectures, essays, and books of the 1850s, 1860s, and 1870s. Concerned primarily with nature, art, philosophy, American culture, and his contemporaries, the notebooks presented in this first of a three-volume editions afford fascinating insight into Emerson's creative practices. They will offer new perspectives for future readings of his completed works. The editors provide faithful transcriptions of the notebooks using the highest standards of textual practice. Their detailed annotations describe and comment on erased or revised passages, translate Greek and Latin quotations, and identify books and articles referred to in the texts of the notebooks. References to similar passages in Emerson's journals, lectures, and published works are also provided in the annotations. Publication of these notebooks will enable scholars to trace ideas that have gone unnoticed previously. The *Topical Notebooks of Ralph Waldo Emerson, Volume 1*, offers valuable insight into the art and philosophy of one of America's foremost thinkers. These volumes will be an important addition to any personal or institutional library of nineteenth-century American literature.--Publishers website.

Nature Ralph Waldo Emerson, 2016-10-23 In *Nature*, Emerson lays out and attempts to solve an abstract problem: that humans do not fully accept nature's beauty. He writes that people are distracted by the demands of the world, whereas nature gives but humans fail to reciprocate. The essay consists of eight sections: Nature, Commodity, Beauty, Language, Discipline, Idealism, Spirit and Prospects. Each section takes a different perspective on the relationship between humans and nature. In the essay Emerson explains that to experience the wholeness with nature for which we are naturally suited, we must be separate from the flaws and distractions imposed on us by society. Emerson believed that solitude is the single mechanism through which we can be fully engaged in the world of nature, writing To go into solitude, a man needs to retire as much from his chamber as from society. I am not solitary whilst I read and write, though nobody is with me. But if a man would be alone, let him look at the stars. When a person experiences true solitude, in nature, it take[s] him away. Society, he says, destroys wholeness, whereas Nature, in its ministry to man, is not only the material, but is also the process and the result. All the parts incessantly work into each other's hands for the profit of man. The wind sows the seed; the sun evaporates the sea; the wind blows the vapor to the field; the ice, on the other side of the planet, condenses rain on this; the rain feeds the plant; the plant feeds the animal; and thus the endless circulations of the divine charity nourish man.

Essays by Ralph Waldo Emerson Ralph Waldo Emerson, 2017-11-14 Although Ralph Waldo Emerson, perhaps America's most famous philosopher, did not wish to be referred to as a transcendentalist, he is nevertheless considered the founder of this major movement of nineteenth-century American thought. Emerson was influenced by a liberal religious training; theological study; personal contact with the Romanticists Coleridge, Carlyle, and Wordsworth; and a strong indigenous sense of individualism and self-reliance. Emerson's best work was done between 1836 and 1860, a period which includes his famous *Essays*.

Uses of Great Men Ralph Waldo Emerson, 2017-04-14 Ralph Waldo Emerson (May 25, 1803 - April 27, 1882) was an American essayist, lecturer, and poet who led the transcendentalist movement of the mid-19th century. He was seen as a champion of individualism and a prescient critic of the countervailing pressures of society, and he disseminated his thoughts through dozens of published essays and more than 1,500 public lectures across the United States. Emerson gradually moved away from the religious and social beliefs of his contemporaries, formulating and expressing the philosophy of transcendentalism in his 1836 essay *Nature*. Following this work, he gave a speech entitled *The American Scholar* in 1837, which Oliver Wendell Holmes Sr. considered to be America's intellectual Declaration of Independence. Emerson wrote most of his important essays as lectures first and then revised them for print. His first two collections of essays, *Essays: First Series* (1841) and *Essays: Second Series* (1844), represent the core of his thinking. They include the well-known essays *Self-Reliance*, *The Over-Soul*, *Circles*, *The Poet* and *Experience*. Together with *Nature*, these essays made the decade from the mid-1830s to the mid-1840s Emerson's most fertile period. Emerson wrote on a number of subjects, never espousing fixed philosophical tenets, but developing certain ideas such as individuality, freedom, the ability for humankind to realize almost anything, and the relationship between the soul and the surrounding world. Emerson's nature was more philosophical than naturalistic: Philosophically considered, the universe is composed of Nature and the Soul. Emerson is one of several figures who took a more pantheist or pandeist approach by rejecting views of God as separate from the world. He remains among the linchpins of the American romantic movement, and his work has greatly influenced the thinkers, writers and poets that followed him. When asked to sum up his work, he said his central doctrine was the infinitude of the private man. Emerson is also well known as a mentor and friend of Henry David Thoreau, a fellow transcendentalist. Emerson was born in Boston, Massachusetts, on May 25, 1803, a son of Ruth Haskins and the Rev. William Emerson, a Unitarian minister. He was named after his mother's brother Ralph and his father's great-grandmother Rebecca Waldo. Ralph Waldo was the second of five sons who survived into adulthood; the others were William, Edward, Robert Bulkeley, and Charles. Three other children—Phebe, John Clarke, and Mary Caroline—died in childhood. Emerson was entirely of English ancestry, and his family had been in New England since the early colonial period.
