**Wharton, Hemingway, and the Advent of Modernism** Lisa Tyler, 2019-04-17 Wharton, Hemingway, and the Advent of Modernism is the first book to examine the connections linking two major American writers of the twentieth century, Edith Wharton and Ernest Hemingway. In twelve critical essays, accompanied by a foreword from Wharton scholar Laura Rattray and a critical introduction by volume editor Lisa Tyler, contributors reveal the writers' overlapping contexts, interests, and aesthetic techniques. Thematic sections highlight modernist trends found in each author's works. To begin, Peter Hays and Ellen Andrews Knodt argue for reading Wharton as a modernist writer, noting how her works feature characteristics that critics customarily credit to a younger generation of writers, including Hemingway. Since Wharton and Hemingway each volunteered for humanitarian medical service in World War I, then drew upon their experiences in subsequent literary works, Jennifer Haytock and Milena Radeva-Costello analyze their powerful perspectives on the cataclysmic conflict traditionally viewed as marking the advent of modernism in literature. In turn, Cecilia Macheski and Sirpa Salenius consider the authors' passionate representations of Italy, informed by personal sojourns there, in which they observed its beautiful landscapes and culture, its liberating contrast with the United States, and its period of fascist politics. Linda Wagner-Martin, Lisa Tyler, and Anna Green focus on the complicated gender politics embedded in the works of Wharton and Hemingway, as evidenced in their ideas about female agency, sexual liberation, architecture, and modes of transportation. In the collection's final section, Dustin Faulstick, Caroline Chamberlin Hellman, and Parley Ann Boswell address suggestive intertextualities between the two authors with respect to the biblical book of Ecclesiastes, their serialized publications in Scribner's Magazine, and their affinities with the literary and cinematic tradition of noir. Together, the essays in this engaging collection prove that comparative studies of Wharton and Hemingway open new avenues for understanding the pivotal aesthetic and cultural movements central to the development of American literary modernism.

*Hemingway's Craft* Sheldon Norman Grebstein, 1973 With Hemingway's work arousing a new surge of interest, the need is evident for a new, responsible critical approach to his craft. It is to this point, of dealing with the writer's artistry, that Grebstein addresses himself--to those aspects of structure, language, and narrative technique which distinguishes his writing from all other. And in a manner that is genuinely new in Hemingway criticism Mr. Grebstein undertakes a thorough analysis of the elements of craft which characterized Hemingway's skill as a writer. An important addition to this book is the Appendix

which reprints several significant passages which were deleted from two of the major works, *A Farewell to Arms* and *For Whom the Bell Tolls*.

Hemingway's Italy Rena Sanderson, 2006-03-01 In 1918, a one-month stint with the American Red Cross ambulance corps at the Italian front marked the beginning of Ernest Hemingway's fascination with Italy—a place second only to Upper Michigan in stimulating his lifelong passion for geography and local expertise. Hemingway's Italy offers a thorough reassessment of Italy's importance in the author's life and work during World War I and the 1920s, when he emerged as a promising young writer, and during his maturity in the late 1940s and early 1950s. This collection of eighteen essays presents a broad view of Hemingway's personal and literary response to Italy. The contributors, some of the most distinguished Hemingway scholars, incorporate new biographical and historical information as well as critical approaches ranging from formalist and structuralist theory to cultural and interdisciplinary explorations. Included are discussions of Italy's psychological functioning in Hemingway's life, the author's correspondence with his father during the writing of *A Farewell to Arms*, his stylistic experimentation and characterization in that novel, his juxtaposition of the themes of love and war, and his take on Fascism in both his fiction and journalistic work. In addition, the essayists explore relevant contexts of period and place—such as the rise of Fascism, ethnic attitudes, and the cultural currents between Italy and the United States. A landmark study, *Hemingway's Italy* brings long-overdue attention to this great writer's international role as cultural ambassador. Contributors : Rena Sanderson, Nancy R.
