

Call For Papers Filosofia

Victor M. Corman

Rivista di Estetica 85 AA.VV.,2024-07-05 This issue of the 'philosophy of the city' includes articles by scholars on a range of human sciences, from media theory to aesthetics and architectural theory. Philosophy, social ontology, cultural anthropology, aesthetics, digital hermeneutics, media theory, cognitive science: these are just some of the disciplines that contribute to the philosophy of the city. This variety of approaches doesn't necessarily result in a chaotic mix. Many of the included forms of discourse belong to the same episteme, which means there are many connections and overlaps. This is true both in the literatures of reference and in the ways of answering the question of what 'the city' is. Secondly, the texts don't focus on the city itself, but on those who live in, design, imagine and think about it. Thirdly, because these texts create a place where different ideas can live together. This is like a city, where ideas change, are built on and then rebuilt. This is what Wittgenstein wrote about in his Philosophical Investigations.

The Human Project Nicola Abbagnano,2022-06-08 This book explores human possibility at the end of the twentieth century. It takes the form of discussion between an eminent philosopher and a skilled journalist about “the human measure” as it engages false absolutes and their accompanying utopias. The book proposes a “third way” between capitalism and socialism, and it concludes with comments on end-of-century phenomena, including democracy, intellectuals, and terrorism.
