**Horror Manga Styles** Hazel Monroe, AI, 2025-03-10 Horror Manga Styles explores the chilling visual design of Japanese horror comics, revealing how shadows, contrast, and surreal imagery combine to create unforgettable experiences. This exploration provides a framework for understanding how artistic choices profoundly impact emotional response, offering insights for both creators and enthusiasts. One intriguing fact is how shadows, beyond simple darkness, become characters themselves, concealing threats. The book uniquely analyzes the fusion of these core design principles, arguing they are fundamental mechanisms for generating unease and terror. Beginning with foundational visual design concepts, the book progresses through sections examining shadows, contrast, and surrealism. Each element is dissected through iconic panels and stylistic trends, revealing how these techniques evoke dread, amplify tension, and unlock subconscious fears. It culminates with a discussion of subgenres and styles, offering practical insights for artists.

*Streaming Horrors* Sotiris Petridis, 2025-07-17 Audiovisual content has transformed significantly with technological advancements and the rise of new media. In addition to revitalizing older works by making them accessible to a broader audience, streaming platforms also create exclusive original content designed specifically for online consumption. This is especially evident in horror films and television; new methods of narration and storytelling have enhanced the genre, and streaming has made it more widely available than before. This collection of essays examines audiovisual horror's adaptation to the features and audience of the digital era. The essays focus on the various effects of new media in the audiovisual landscape with regard to institutions, audiences, and content. The horror genre has undergone a rapid evolution and re-invention as technology has shaped both the narratives and the ways in which consumers interact with on-screen content.

*The Making of Anime and Manga* Mari Bolte, 2026-01-01 Anime and manga are some of the most popular forms of media found in bookstores, online, and on streaming services around the world—but how do they get made? And how do they get licensed overseas? From weekly serialized manga to feature film productions, both need a big team. Dive into the creative processes behind the makings of anime and manga. Explore the evolution of animation from the form's first motion pictures to modern-day digital and computer animation. Discover how a manga is conceived, edited, and made, from its editorial team to the assistants who help mangaka ink, shade, and add backgrounds to their work. *Horror Comics and Religion* Brandon R. Grafius, 2024-12-02 While many genres offer the potential for theological reflection and exploration of religious issues, the nature of horror provides unique ways to wrestle with these questions. Since EC Comics of the 1950s, horror comics have performed theological work in ways that are sometimes obvious, sometimes subtle, but frequently surprising and provocative. This collection brings together essays covering the history of horror comics, from the 1950s to the present, with a focus on their engagement with religious and theological issues. Essays explore topics such as the morality of EC Comics, cosmic indifference in the works of Junji Ito, the reincarnated demons of the web-comic *The Devil is a Handsome Man*, religion and racial horror in comic voodoo, and much more.

**Horror Fiction in the Global South** Ritwick Bhattacharjee, Saikat Ghosh, 2021-04-30 *Horror Fiction in the Global South: Cultures, Narratives, and Representations* believes that the experiences of horror are not just individual but also/simultaneously cultural. Within this understanding, literary productions become rather potent sites for the relation of such experiences both on the individual and the cultural front. It's not coincidental, then, that either William Blatty's *The Exorcist* or Gabriel Garcia Marquez's *One Hundred Years of Solitude* become archetypes of the re-presentations of the way horror affects individuals placed inside different cultures. Such an affectation, though, is but a beginning of the ways in which the supernatural interacts with the human and gives rise to horror. Considering that almost all aspects of what we now designate as the Global North, and its concomitant, the Global South – political, historical, social, economic, cultural, and so on – function as different paradigms, the experiences of horror and their telling in stories become functionally different as well. Added to this are the variations that one nation or culture of the east has from another. The present anthology of essays, in such a scheme of things, seeks to examine and demonstrate these cultural differences embedded in the impact that figures of horror and specters of the night have on the narrative imagination of storytellers from the Global South. If horror has an everyday presence in the phenomenal reality that Southern cultures subscribe to, it demands alternative phenomenology. The anthology allows scholars and connoisseurs of Horror to explore theoretical possibilities that may help address precisely such a need.

**Project Arms, Vol. 2** Kyoichi Nanatsuki, 2003-10-01 Just when Ryo and Hayato learn that the third ARM's kid is Takashi Tomoe, the new transfer student at their school, the mysterious Egrigori organization deploys precocious twins Jeff and Al Bowen to go after them. Illustrations.

Kuronami Nicolás Francis, 2025-03-15 *Kuronami: 9 Japanese Horror Stories* Every 243 years, an ancient force awakens from the depths: a black wave known as Kuronami, rising mercilessly, sweeping away and devouring all who dare to challenge its power...
