Online Child Sexual Abuse Elena Martellozzo,2013-06-17 Online Child Sexual Abuse: Grooming, Policing and Child Protection in a Multi-Media World addresses the complex, multi-faceted and, at times, counter-intuitive relationships between online grooming behaviours, risk assessment, police practices, and the actual danger of subsequent abuse in the physical world. Online child sexual abuse has become a high profile and important issue in public life. When children are victims, there is clearly intense public and political interest and concern. Sex offenders are society's most reviled deviants and the object of seemingly undifferentiated public fear and loathing. This may be evidenced in ongoing efforts to advance legislation, develop police tactics and to educate children and their carers to engage with multi-media and the internet safely. Understanding how sex offenders use the internet and how the police and the government are responding to their behaviour is central to the development of preventative measures. Based on extensive ethnographic research conducted with the police and a specialist paedophile unit, here Elena Marellozzo presents an informed analysis of online child sexual abuse: of the patterns and characteristics of online grooming, and of the challenges and techniques that characterize its policing. Connecting theory, research and practice in the field of policing, social policy, victimology and criminology, this book adds significantly to our understanding and knowledge of the problem of online child sexual abuse, the way in which victims are targeted and how this phenomenon is, and might be, policed.

Shuttle-Mir Clay Morgan, 2001 This multimedia history details the first major Russia-American partnership after the fall of the Soviet Union, combining the American Space Shuttle's ready access to space with Russia's long-term address in orbit--their space station Mir. The book presents the human side of the Shuttle-Mir story, beginning by setting the historical stage. It then alternates between efforts of the team members on the ground, the missions of the American Space Shuttles to and near Mir, and the tales of the seven American astronauts who, with their Russian crewmates, endured months in Earth orbit. The searchable CD-ROM further explores the Shuttle-Mir Program with more texts, photos, videos, biographies, letters home from the Mir astronauts, and oral histories that explain the day-to-day challenges faced by those working on Earth and in orbit.

Raising Abel Ronald Ragotzy MD, 2012-12-06 Raising Abel assumes that the Bible would not bother telling us about a cunning serpent, a murderous brother, or a resinous gopher tree, if they didn't have something to do with the deeper topic of faith. After all, isn't the Bible the authority on faith? Raising Abel explores the most familiar chapters of Genesis, not as a collection of stories of the beginning of time, but as our first and best guide to the subject of faith. The author, as a physician, explains faith within the framework of wellness, dividing the Genesis stories into four parts that answer four questions. The Premise: What does healthy faith look like? (Genesis 12) The Problem: What can cause this healthy state to become diseased? (Genesis 35) The Prescription: What medicine is needed to restore us to a healthy faith? (Genesis 69:17) The Practice: What must we do to maintain this healthy faith? (Genesis 9:18-11) Raising Abel reassures us that there is something greater than a perfectly good world; it is an imperfect world plus faith. In a perfect world there would be no need of faith. Get ready to experience faith in a whole new light!

The Oxford Dictionary of Humorous Quotations Ned Sherrin, 2001 In The Oxford Dictionary of Humorous Quotations, noted writer and satirist Ned Sherrin has gathered nearly 6,000 quotations drawn from an international cast of humorists and pundits, ranging from Shakespeare, Jane Austen, and Oscar Wilde to Groucho Marx, Monty Python, and Roseanne. Forty themes, from computers to tennis, and over eight hundred quotations, are completely new to this edition. Arranged in themes from Actors and Acting (including Dorothy Parker's famous barb on Katherine Hepburn's Broadway debut, She ran the whole gamut of the emotions from A to B) to Youth (Georges Courteline, It's better to waste one's youth than to do nothing with it at all), Sherrin has collected the sharpest, the wittiest, the wryest in quips, put-downs, and one-liners. Here are the best lines of comedians and playwrights, novelists and producers, cartoonists and moguls, soldiers and lawyers. Readers will find Woody Allen (I don't want to achieve immortality through my work...I want to achieve it by not dying), Noel Coward, Cole Porter, Mae West, Will Rogers, and George Bernard Shaw--as well as literary wags from Kingsley Amis to Evelyn Waugh and Gore Vidal (on Eisenhower in 1964, reading a speech with his usual sense of discovery). Each quotation comes with details of who said it, where, and when, while separate keyword and author indices mean the reader will never have to wonder whose line is it anyway? Displaying all shades of humor, from dry to sly, subtle to wacky, The Oxford Dictionary of Humorous Quotations will be the perfect resource for public speakers, writers and anyone else who enjoys a sparkling line, a clever pun, or a wickedly clever riposte.

Extreme Trust Don Peppers, Martha Rogers, 2012-04-26 How companies can stay competitive in a world of total transparency. With their first book, 1993's The One-to-One Future, Don Peppers and Martha Rogers introduced the idea of managing interactive customer relationships, long before the Web and social networking made it standard business practice. With Extreme Trust, they look to the future once again, predicting that rising levels of transparency will require companies to protect the interests of their customers and employees proactively, even when it sometimes costs money in the short term. The importance of this trustability will transform every industry. Retail banks won't be able to rely as much on overdraft charges. Consumers will expect retailers to remind them when they have unused balances on gift cards. Credit card companies will coach customers to avoid excessive borrowing. Cell phone providers will help customers find appropriate calling plans for their usage patterns. Success won't come from top-down rules and processes, but from bottom-up solutions on the part of employees and customers themselves. And the most successful businesses will earn and keep the extreme trust of everyone they interact with
