The natural history of animals. 8 half-vols James Richard Ainsworth Davis, 1904

Old Testament Quotations in the New Testament Gleason L. Archer, Gregory Chirichigno, 2005-01-26 New Testament writers drew heavily from Old Testament Scriptures as they demonstrated the fulfillment of the plan and promises of God in Christ. The New Testament is filled with such quotations, but their use raises several problems. How do we account for the occasions when the New Testament writers seem to take liberties with the Hebrew text, or when the wording of other New Testament citations of the Old Testament is closer to the Greek Septuagint (LXX) than to the original Hebrew? [The authors] have undertaken a systematic study of the use of Old Testament quotations in the New Testament. In three parallel columns for ready reference and study they have affixed the Masoretic Hebrew, Septuagint, and Greek New Testament texts pertinent to each quotation. A fourth column-- the largest segment of the valuable language tool--provides a critical commentary of orthographic, linguistic, and textual notes on the 312 entries. In addition, the authors include the results of a statistical survey in which every quotation is assigned to one of six levels to determine its degree of difficulty regarding the faithfulness of the New Testament to the Old Testament quotation. Helpful introductory material, including complete cross-references to the tool in both Old and New Testament order, make the work invaluable to scholars and students alike -- BOOK JACKET from Moody Press.
