**Mental Health and Mental Disorders** Len Sperry,2015-12-14 Serving as an indispensable resource for students and general-interest readers alike, this three-volume work provides a comprehensive view of mental health that covers both mental well-being and mental illness. A three-volume ready-reference encyclopedia, this up-to-date work supplies a holistic introduction to the fields of mental health and mental disorders that is written specifically for high school students and college students. Covering the full continuum of mental health, the set describes typical functioning, including biology and neurology of the brain, emotions, and the traits and characteristics of mental well-being. It also addresses mental disorders and conditions, from obsessive compulsive disorder (OCD) and post-traumatic stress disorder (PTSD) to phobias and schizophrenia. *Mental Health and Mental Disorders: An Encyclopedia of Conditions, Treatments, and Well-Being* highlights important concepts and phenomena, key individuals, treatment techniques, organizations, and diagnostic tools to give readers a complete view of this broad field of study. It also investigates all sides of wellness, exploring what it means to be normal and consistently identifying the links between lifestyle and mental health. The encyclopedia is consistent with the goals of AP psychology curricula and addresses the various disorders classified in the new edition of the APA Diagnostic and Statistical Manual (DSM-V-TR).

Handbook of Narrative Analysis Luc Herman,Bart Vervaeck,2019-12-01 Stories are everywhere, from fiction across media to politics and personal identity. *Handbook of Narrative Analysis* sorts out both traditional and recent narrative theories, providing the necessary skills to interpret any story. In addition to discussing classical theorists, such as Gérard Genette, Mieke Bal, and Seymour Chatman, *Handbook of Narrative Analysis* presents precursors (such as E. M. Forster), related theorists (Franz Stanzel, Dorrit Cohn), and a large variety of postclassical critics. Among the latter particular attention is paid to rhetorical, cognitive, and cultural approaches; intermediality; storyworlds; gender theory; and natural and unnatural narratology. Not content to consider theory as an end in itself, Luc Herman and Bart Vervaeck use two short stories and a graphic narrative by contemporary authors as touchstones to illustrate each approach to narrative. In doing so they illuminate the practical implications of theoretical preferences and the ideological leanings underlying them. Marginal glosses guide the reader through discussions of theoretical issues, and an extensive bibliography points readers to the most current publications in the field. Written in an accessible style, this handbook combines a comprehensive treatment of its

subject with a user-friendly format appropriate for specialists and nonspecialists alike. Handbook of Narrative Analysis is the go-to book for understanding and interpreting narrative. This new edition revises and extends the first edition to describe and apply the last fifteen years of cutting-edge scholarship in the field of narrative theory.

**The Plot to Save South Africa** Justice Malala, 2023-04-04 'Superbly reported, compelling . . . wonderfully captures the spirit of that time' Financial Times 'Gripping and important' Observer

Nine days that set the course of a nation...

Johannesburg, Easter weekend, 1993. Nelson Mandela has been free for three years and is in slow-moving power-sharing talks with President FW de Klerk when a white supremacist shoots Mandela's popular young heir apparent, Chris Hani, in the hope of igniting an all-out civil war. Will he succeed in plunging South Africa into chaos, safeguarding apartheid for perhaps years to come? Or can Mandela and de Klerk overcome their differences and mutual suspicion and calm their followers, plotting a way forward? In *The Plot to Save South Africa*, acclaimed South African journalist Justice Malala recounts the riveting story of the next nine days - never before told in full - revealing rarely seen sides of both Mandela and de Klerk, the fascinating behind-the-scenes debates within each of their parties over whether to pursue peace or war, and their increasingly desperate attempts to restrain their supporters despite mounting popular frustrations. Flitting between the points of view of over a dozen characters on all sides of the conflict, Justice Malala offers an illuminating look at successful leadership in action... and a terrifying reminder of just how close a country we think of today as a model for racial reconciliation came to civil war.

'A dramatic work of history, prodigiously reported and beautifully crafted. Justice Malala is a first-rate storyteller, deftly weaving history with a narrative that reads like a novel. I couldn't put it down' Jonathan Eig, New York Times bestselling author of *Ali: A Life*  
'Magnificent, furious and unputdownable' Andrew Harding, BBC Africa correspondent and author of *These Are Not Gentle People*

abstract: Students often groan at the thought of facing another poetry unit. This is stupid., It doesn't make sense., Why do I have to deal with this?. These are common remarks often spilling out of the students at the thought of dealing with poetry. In an attempt to get them to grasp some of the poetry that they will face throughout their education, this teaching unit attempts to use a movie scene as a way of hooking the students. The unit hopes to make enough thematic connections to allow the students the opportunity to more closely examine and explicate a poem by exposing the conduit between it and an individual's biography. In addition to the thematic connections, this unit will also reveal common elements of poetry in a non-threatening environment. Students will learn about concepts like metaphors, allusions and other elements of poetry by first discovering them in the film. At the same time they upgrade and extend their vocabulary with words, terms, idioms and the vernacular that is used within the dialogs around the poem. Their newly acquired knowledge enables them to articulate both personal discernments and popular apprehensions on the vicissitudes of life (and may even trigger the desire in one or the other to start writing his or her own poem in English, whether it be in a more traditional form or in a rap or a song) and thus serves the primary target of foreign language education: intercultural communicative competence (cf. Council of Europe 2001: 43). Cinema is a vital and powerful medium, and the hope is that it can be used in an effort to hook the students and bring them closer to the enjoyment of poetry. The presentation of poetry in a form that combines four aspects, namely the visual (or optic), phonetic (or sound), kinetic (moving in a visual
