George Woosung Wade

The Apocalypse of Adam Charles W. Hedrick, 2005-09-20 The 'Apocalypse of Adam' was discovered among the papyri from the ancient gnostic library at Nag Hammadi, Egypt, in 1946. It is a revelatory discourse that Adam delivers to his son Seth. This discourse is the fifth and final tractate in Nag Hammadi Codex V. The manuscript is now in the Coptic Museum in Old Cairo (codex inv. no. 10548). In Part I of this significant treatment, Hedrick analyzes the sources that lay behind this work, the redaction, and the main theological themes. In Part II, he provides the Coptic text, translation, and notes on the complete text, broken down by Source A, Source B, and the Redactor's additions.

The Ice Age Challenge Rolf A. F. Witzsche, 2005-03-01 The Ice Age Challenge refers to the challenge that we face globally to create a new foundation for living when the coming Ice Age climate shuts down most of the world's agriculture, possibly 100 to 150 years from now. The novel is the first part of the second episode of the series, *The Lodging for the Rose*, an eight-part science-fantasy centered on universal love, by Rolf A. F. Witzsche. - We truly are in a race against time, the greatest race since the dawn of man, 'racing' to create the technologies, economies, finances, politics, and social cultures that enable us to shift agriculture into efficient indoor facilities in order to protect our food production in the coming Ice Age environment. The Earth has been in an Ice Age for 1.8 million years, interspersed by the occasional warm period, like the present one that is ending in spite of global warming. The necessary infrastructures for survival are technologically feasible, but will we empower ourselves to create them? That appears to be less certain. It seems that we have been put in race without the skills for it. But then, don't we have the potential to be fast learners? In the course of exploring the question the novel touches on the collapse of the Soviet Union, the Aryan invasion in historic India, the face of Islam, the fascist holocaust, depopulation, global warming, nuclear fusion power, indoors agriculture, and principles of marriage, sex, culture, and science.

Mercer Dictionary of the Bible Watson E. Mills, Roger Aubrey Bullard, 1990 Jesus Christ in History and Scripture highlights two related bases for the current revolution in Jesus studies: (1) a critically-chastened world view that is satisfied with provisional results and (2) a creative (or poetic) use of the sources of study of Jesus.

Preaching and Paul's Letter to the Romans Ronald J. Allen, 2025-07-10 Ronald J. Allen argues that the apostle Paul wrote his letter to the Romans to address specifically the gentiles in the congregation in Rome. Allen suggests that this was because the gentiles exhibited arrogant behavior towards Jewish members of the community, thereby undermining a primary facet of the early church - to witness to the community of love and mutual support that God seeks for all. Allen shows readers how Paul points the gentiles to the faithfulness of God, who invites them to recognize and live according to the grace of God, shown to them through Jesus Christ. In this pastorally engaged work, Allen not only provides historical commentary on Romans but also helps preachers and scholars make connections between arrogance and its destructiveness in communities today, as well as inviting congregations to participate in the grace that makes possible a loving and mutually respectful community.

Jesus Within Judaism James H. Charlesworth, 1988 As James H. Charlesworth points out in *Jesus Within Judaism*, we cannot understand Jesus, nor fully appreciate him, without knowing the times in which he lived and the culture in which his thoughts were formed. Drawing on a series of spectacular recent discoveries in archaeology and in the literature of the

period, Charlesworth begins the scholarly process of filling a critical gap in our historical records--Jacket.

Islands and Captivity in Popular Culture Laura J. Getty, 2021-07-20 The choices that individuals make in moments of crisis can transform them. By focusing on fictional characters trapped on fictional islands, the book examines how individuals react when forced to make hard choices within the liminal space of a prison island. At stake is the perception of choice: do characters believe that they have the power to choose, or do they think that they are at the mercy of fate? The results reveal certain patterns--psychological, historical, social, and political--that exist across a variety of popular/public cultures and time periods. This book focuses on how the interplay between liminality and the Locus of Control theory creates dynamic sites of negotiated meaning. This psychological concept has never before been used for literary analysis. Offered here as an alternative to the defects of Freudian psychology, the Locus of Control theory has been proven reliable in thousands of studies, and the results have been found, with few exceptions, to be consistent in both women and men. That consistency is explored through close readings of islands found in popular culture books, films, and television shows, with suggestions for future research.
