Ukraine and the Empire of Capital Yuliya Yurchenko, 2017-12-20 Since 1991, nominally independent Ukraine has been in turmoil, with the Orange Revolution and the Maidan protests marking its most critical moments. Now, its borders are threatened and the civil unrest and armed conflict continue to destabilise the country. In order to understand these dramatic events, Yuliya Yurchenko looks to the country's post-Soviet past in this ambitious analysis of contemporary Ukrainian political economy. Providing distinctive and unexplored reflections on the origins of the conflict, Yurchenko unpacks the four central myths that underlie Ukraine's post-Soviet reality: the myth of transition, the myth of democracy, the myth of two Ukraines, and the myth of 'the other'. In doing so, she sheds light on the current intensification of class rivalries in Ukraine, the kleptocracy, resource wars and analyses existing and potential dangers of the rightwing shift in Ukraine's polity, stressing a historic opportunity for change. Critiquing the concept of Ukraine as 'transition space', she provides a sweeping analysis which includes the wider neoliberal restructuring of global political economy since the 1970s, with particular focus on Ukraine's relations with the US, the EU and Russia. This is a book for those wanting to understand the current conflict as a dangerous product of neoliberalism, of the empire of capital.

Univision, Telemundo, and the Rise of Spanish-Language Television in the United States Craig Allen, 2023-05-02

The first history of Spanish-language television in the United States In the most comprehensive history of Spanish-language television in the United States to date, Craig Allen traces the development of two prominent yet little-studied powerhouses, Univision and Telemundo. Allen tells the inside story of how these networks fought enormous odds to rise as giants of mass communication within an English-dominated society. The book begins in San Antonio, Texas, in 1961 with the launch of the first Spanish-language station in the country. From it rose the Spanish International Network (SIN), which would later

become Univision. Conceived by Mexican broadcasting mogul Emilio Azcárraga Vidaurreta and created by unsung American television pioneers, Univision grew to provide a vast amount of international programming, including popular telenovelas, and was the first U.S. network delivered by satellite. After Telemundo was founded in the 1980s by Saul Steinberg and Harry Silverman, the two networks battled over audiences and saw dramatic changes in leadership. Today, Univision and Telemundo are multibillion-dollar television providers that equal ABC, CBS, NBC, and Fox in scale and stature. While Univision remains a beacon of U.S. television's internationalization, Telemundo—owned by NBC—is a worldwide leader in producing Spanish-language programs. Using archival sources and original interviews to reconstruct power struggles and behind-the-scenes intrigue, Allen uses this exciting narrative to question monolingual and Anglo-centered versions of U.S. television history. He demonstrates the endurance, innovation, and popularity of Spanish-language television, arguing that its story is essential to understanding the Latinx history of contemporary America. A volume in the series *Reframing Media, Technology, and Culture in Latin/o America*, edited by Héctor Fernández L'Hoeste and Juan Carlos Rodríguez
