The United Nations and Decolonization Nicole Eggers, Jessica Lynne Pearson, Aurora Almada e Santos, 2020-07-27

Differing interpretations of the history of the United Nations on the one hand conceive of it as an instrument to promote colonial interests while on the other emphasize its influence in facilitating self-determination for dependent territories. The authors in this book explore this dynamic in order to expand our understanding of both the achievements and the limits of international support for the independence of colonized peoples. This book will prove foundational for scholars and students of modern history, international history, and postcolonial history.

Professor Roger Stenson Clark has played a pivotal role in developing International Criminal Law, and the movement against nuclear weapons. He was one of the intellectual and moral fathers of the International Criminal Court. This Festschrift brings together forty-one appreciative friends to honour his remarkable contribution. The distinguished contributors provide incisive contributions ranging from the reform of the Security Council, to rule of law and international justice in Africa, to New Zealand cultural heritage, to customary international law in US courts, and more. Threaded through these richly diverse contributions is one common feature: a belief in values and morality in human conduct, and a passion for transformative use of law, 'for the sake of present and future generations.'

Encyclopedia of Genocide Israel W. Charny, 1999 Alphabetical entries define names, places, and events associated with genocide, and major sections deal with the Armenian genocide, the Holocaust, and the process, detection, denial, and prevention of genocide.

ASEAN and the Responsibility to Protect Thida Chanthima Neth, 2024-11-13 This book adopts a sociolegal and interdisciplinary approach to examine how the Responsibility to Protect (R2P) has been understood within the Association of Southeast Asian Nations (ASEAN). Historically, the international community has struggled to effectively address humanitarian crises worldwide. The concept of the 'Responsibility to Protect' (R2P) has emerged over the past two decades as a principle that could guide states' efforts to prevent and respond to humanitarian crises. However, R2P's interpretation varies across different regions, and it remains to be established whether it can successfully achieve its goals. This book adopts an interdisciplinary approach to analyse how R2P has been perceived and applied within the Association of Southeast Asian Nations (ASEAN) and China. In particular, it explores ASEAN's, ASEAN member-states' and China's understanding and implementation of R2P, paying special attention to the 1999 East Timor crisis, the Rohingya crisis, and the West Papua conflict. The book assesses whether R2P has influenced the actions of ASEAN, its member states, and China. At a broader level, the book also explores regional approaches to international law, shedding light on Southeast Asian states' perspectives on this aspect of global governance. This book will be of much interest to students of Responsibility to Protect, Asian politics, human rights, international law, and International Relations in general.

Papua Bilveer Singh, 2011-12-31 The Papuan conflict has been on the international radar screen since Indonesia became an independent state in 1945. Since the surrender of the territory of Papua to Indonesia in 1962, a low-intensity military conflict has been building. Most Papuans believed that their right to self-determination was sacrificed on the altar of geopolitics. Later, when East Timor seceded peacefully from Indonesia, Papuans expected the same right. When this did not happen, the conflict intensified. In this pivotal work, Bilveer Singh examines the history of the Papuan struggle, and approaches to conflict resolution through the framework of its geopolitical implications. Asserting that the Papuans were treated unjustly by Indonesia and the international community, it is not surprising that many have come down squarely on the side of Papuan independence as a way out of the imbroglio. While to some extent the Papuan's case cannot be denied, definite political and strategic realities should not be ignored. Unfortunately for the Papuans, their territory has immense geopolitical, geostrategic, and economic significance--not only for Indonesia, but also for others such as the United States, China, Australia, and a number of European countries. Papua is wealthy, under-populated and backward in terms of human resource development. Its future as a distinct entity is in real danger as the Papuans are becoming the minority in their own homeland. Due to the asymmetry of power, the Papuans' struggle has not made a breakthrough that would force Indonesia to rethink the future of the territory in any fundamental way. In order to unravel the dynamics involving Papuan separatism,

this study describes the Papuan political landscape. Singh explains what makes Papua unique, and how its makeup has affected the territory's political dynamics. He analyzes the emergence of Papua as a geopolitical trophy, calling into question the degree to which Papuan nationalism has crystallized. Finally, he questions whether Papua is emerging as a regional flashpoint, and, in view of its geopolitical importance, the various options available. *Papua: Geopolitics and the Quest for Nationhood* will be of interest to scholars of international relations, comparative politics of Indonesia and the Asia-Pacific, and policymaking.

Paradigm Wars Jerry Mander, Victoria Tauli-Corpuz, 2006 In this spirited book, best-selling author Jerry Mander partners with one of the world's most celebrated indigenous leaders, Victoria Tauli-Corpuz, to gather powerful firsthand reports on a momentous collision of worldviews that pits the forces of economic globalization against the Earth's indigenous peoples. With many of the planet's remaining natural resources on indigenous lands, traditional indigenous practices of biodiversity preservation have, ironically, made these lands targets for global corporations seeking the last forests, genetic and plant materials, oil, and minerals to feed their unsustainable growth. Corporate invaders often employ military force, as well as harsh pressures from the World Bank, IMF, and WTO. But native peoples refuse to be victims. Their stories of resistance and growing success are inspirational. Book jacket.

Modus Vivendi Situation of West Papua H.E. Leon Kaulahao Siu, Prof. Dr. h.c Mehmet _ŸkrŸ GŸzel, 2018-01-24 West

Papua is the western half of New Guinea, the second-largest island in the world, and unlike its neighbor Papua New Guinea, it is still struggling to gain its independence. While Papua New Guinea, a former Australian-administered territory, became independent in 1975, West Papua is under Indonesia's control. The United Nations General Assembly provided the necessary support to carry out a self-determination referendum, but key administrative parties circumvented or subverted the process. As a result, West Papuans have been denied their freedom, which has caused massive suffering and loss of life. In this book on the current international status of West Papua, the authors explain the history of the island, from its discovery along the spice route in the 1500s to the arrival of the Portuguese, Spanish, and Dutch-up to the present day. More importantly, they explain how West Papua could gain true independence if the United Nations and its members fulfilled their legal and moral obligations.

Morning Star Rising Camellia Webb-Gannon,2021-06-30 That Indonesia's ongoing occupation of West Papua continues to be largely ignored by world governments is one of the great moral and political failures of our time. West Papuans have struggled for more than fifty years to find a way through the long night of Indonesian colonization. However, united in their pursuit of merdeka (freedom) in its many forms, what holds West Papuans together is greater than what divides them. Today,

the Morning Star glimmers on the horizon, the supreme symbol of merdeka and a cherished sign of hope for the imminent arrival of peace and justice to West Papua. *Morning Star Rising: The Politics of Decolonization in West Papua* is an ethnographically framed account of the long, bitter fight for freedom that challenges the dominant international narrative that West Papuans' quest for political independence is fractured and futile. Camellia Webb-Gannon's extensive interviews with the decolonization movement's original architects and its more recent champions shed light on complex diasporic and intergenerational politics as well as social and cultural resurgence. In foregrounding West Papuans' perspectives, the author shows that it is the body politic's unflagging determination and hope, rather than military might or influential allies, that form the movement's most unifying and powerful force for independence. This book examines the many intertwining strands of decolonization in Melanesia. Differences in cultural performance and political diversity throughout the region are generating new, fruitful trajectories. Simultaneously, Black and Indigenous solidarity and a shared Melanesian identity have forged a transnational grassroots power-base from which the movement is gaining momentum. Relevant beyond its West Papua focus, this book is essential reading for those interested in Pacific studies, Native and Indigenous studies, development studies, activism, and decolonization.
