Theatre Masks Out Side In Wendy J. Meaden, Michael A. Brown, 2023-02-28 Theatre Masks Out Side In examines masks from different angles and perspectives, combining the history, design, construction, and use of masks into one beautifully illustrated resource. Each chapter includes key information about an element of mask study: history and uses, theatre traditions, practical principles for directing, performing exercises, design considerations, mask-making techniques, and considering makeup as mask. Artist interviews, theatre company profiles, and hundreds of images provide insight into the variety of mask styles and performance applications. Project suggestions, discussion questions, useful worksheets, creative prompts, and resources for sourcing masks are included to inspire further exploration. Theatre Masks Out Side In is designed with the beginning theatre maker in mind, as well as prop makers, costume designers and technicians, and actors learning to use masks in performance.

The Mask in Ancient Greek Tragedy Martha Bancroft Johnson, 1986

The Curtain Rises: A history of theater from its origin in Greece and Rome through the English restoration Paula Gaj Sitarz, 1991 Western drama from the time of Aeschylus's tragedies to the comedy of Restoration England, from the perspective of what theatergoers actually experienced in each period.

Between Worlds Lindsey Büster, Eugène Warmenbol, Dimitrij Mlekuž, 2018-12-18 The recent resurgence of academic interest in caves has demonstrated the central roles they played as arenas for ritual, ceremony and performance, and their importance within later prehistoric cosmologies. Caves represent very particular types of archaeological site and require novel approaches to their recording, interpretation and presentation. This is especially true in understanding the ritual use of caves, when the less tangible aspects of these environments would have been fundamental to the practices taking place within them. *Between Worlds* explores new theoretical frameworks that examine the agency of these enduring 'natural' places and the complex interplay between environment, taphonomy and human activity. It also showcases the application of innovative technologies, such as 3D laser-scanning and acoustic modelling, which provide new and exciting ways of capturing the experiential qualities of these enigmatic sites. Together, these developments offer more nuanced understandings of the role of caves in prehistoric ritual, and allow for more effective communication, management and presentation of cave archaeology to a wide range of audiences.
