The Emperor Theophilos and the East, 829–842 Juan Signes Codoñer, 2016-03-23 Modern historiography has become accustomed to portraying the emperor Theophilos of Byzantium (829-842) in a favourable light, taking at face value the legendary account that makes of him a righteous and learned ruler, and excusing as ill fortune his apparent military failures against the Muslims. The present book considers events of the period that are crucial to our understanding of the reign and argues for a more balanced assessment of it. The focus lies on the impact of Oriental politics on the reign of Theophilos, the last iconoclast emperor. After introductory chapters, setting out the context in which he came to power, separate sections are devoted to the influence of Armenians at the court, the enrolment of Persian rebels against the caliphate in the Byzantine army, the continuous warfare with the Arabs and the cultural exchange with Baghdad, the Khazar problem, and the attitude of the Christian Melkites towards the iconoclast emperor. The final chapter reassesses the image of the emperor as a good ruler, building on the conclusions of the previous sections. The book reinterprets major events of the period and their chronology, and sets in a new light the role played by figures like Thomas the Slav, Manuel the Armenian or the Persian Theophobos, whose identity is established from a better understanding of the sources.

The Art of Deliberating Giovanni Boniolo, 2012-08-18 How many citizens take part in moral and political decisions concerning the results obtained by the contemporary life sciences? Should they blindly follow skilled demagogues or false and deceptive leaders? Should they adhere to the voice of the majority, or should they take a different decisional path? Deliberative democracy answers these questions, but what is deliberative democracy? Can we really deliberate if we are completely ignorant of the relevant issue? What about ethical or political expertise, is it strictly necessary? Finally, and most significantly, can a deliberative process take place if we ignore the techniques governing it; that is, the techniques required to be minimally skilled in rational argumentation? Giovanni Boniolo goes back to the historical and theoretical foundations of deliberation showing us, with some irony, that deliberation is a matter of competence, and not just a matter of a right to decide. His conclusion might not delight everyone: “anyone who is not sufficiently acquainted with the subject matter or lacks the sufficient deliberative competence ought not be admitted to deliberative discussions. This restriction makes both good deliberation and a proper deliberative democracy possible, otherwise debate degenerates into demagoguery and hypocrisy”.

Dictionary of European Proverbs Emanuel Strauss, 2012-11-12 This Dictionary contains over 50,000 proverbs, in some 70 European languages and dialects, arranged in 2,500 sets. It is the fruits of over 40 years of collection and research, the only collection of proverbs on anything like this scale ever to be published anywhere in the world. Emanuel Strauss has trawled through innumerable collections of proverbs in all languages, from early printed books and rare items to the latest theses and journals, and grouped together many thousands of proverbs in sets of equivalent meaning. Comprehensive

indexes for each language provide access to any proverb by way of its key words. A critical bibliography musters some 500 items, from incunabula to the current decade.

Laughing Matters Giorgio Baruchello, Ársæll Már Arnarsson, 2023-11-06 Part 2 of Volume 3 addresses in detail the conflicts between humor and cruelty, i.e., how cruelty can be unleashed against humor and, conversely, humor can be utilized against cruelty. Potent enmities to mirth and jollity are retrieved from a variety of socio-historical contexts, ranging from Europe's medieval monasteries to the 2015 Charlie Hebdo massacre. Special attention is paid to the cruel humor and humorous cruelty arising thereof, insofar as such phenomena can reveal critical aspects of today's neoliberal socio-economic order. In parallel, settings where humor has been used as an instrument to cope with suffered cruelty, whether natural or human in origin, are also retrieved and discussed. These also vary greatly and encompass domains such as hospital wards, 20th-century Jewish ghettos, and contemporary funeral homes. A set of concluding reflections is then offered on the psychological, theological, ethical, and metaphysical roots of humor—and its cruel rejection. Like Aristotle and Dewey, Arnarsson and Baruchello do not define their terms at the outset, but instead they relentlessly pursue the meanings of two ordinary words that everyone vaguely understads to arrive at a critical insight into the concepts these words represent, which are both disparate and interrelated. - Richard Marc Rubin, President, George Santayana Society
