**Asian American Playwrights** Miles Liu, 2002-05-30 In the late nineteenth century, Asian American drama made its debut with the spotlight firmly on the lives and struggles of Asians in North America, rather than on the cultures and traditions of the Asian homeland. Today, Asian American playwrights continue to challenge the limitations of established theatrical conventions and direct popular attention toward issues and experiences that might otherwise be ignored or marginalized. While Asian American literature came into full bloom in the last 25 years, Asian American drama has yet to receive the kind of critical attention it warrants. This reference book serves as a versatile vehicle for exploring the field of Asian American drama from its recorded conception to its present stage. Included are alphabetically arranged entries for 52 Asian American dramatists of origins from India, Pakistan, Vietnam, the Philippines, Japan, Korea, and China. Each entry includes relevant biographical information that contextualizes the works of a playwright, an interpretive description of selected plays that spotlights recurring themes and plots, a summary of the playwright's critical reception, and a bibliography of primary and secondary works. The entries are written by expert contributors and reflect the ethnic diversity of the Asian American community. The volume closes with a selected, general bibliography, which includes anthologies, scholarly studies, and periodicals.

**Eating Asian America** Robert Ji-Song Ku, Martin F Manalansan, Anita Mannur, 2013-09-23 Examines the ways our conceptions of Asian American food have been shaped Chop suey. Sushi. Curry. Adobo. Kimchi. The deep associations Asians in the United States have with food have become ingrained in the American popular imagination. So much so that contentious notions of ethnic authenticity and authority are marked by and argued around images and ideas of food. *Eating Asian America: A Food Studies Reader* collects burgeoning new scholarship in Asian American Studies that centers the study of foodways and culinary practices in our understanding of the racialized underpinnings of Asian Americanness. It does so by bringing together twenty scholars from across the disciplinary spectrum to inaugurate a new turn in food studies: the refusal to yield to a superficial multiculturalism that naively celebrates difference and reconciliation through the pleasures of food and eating. By focusing on multi-sited struggles across various spaces and times, the contributors to this anthology bring into focus the potent forces of class, racial, ethnic, sexual and gender inequalities that pervade and persist in the production of Asian American culinary and alimentary practices, ideas, and images. This is the first collection to consider the fraught

itineraries of Asian American immigrant histories and how they are inscribed in the production and dissemination of ideas about Asian American foodways.

**Asian Americans** Xiaojian Zhao,Edward J.W. Park Ph.D.,2013-11-26 This is the most comprehensive and up-to-date reference work on Asian Americans, comprising three volumes that address a broad range of topics on various Asian and Pacific Islander American groups from 1848 to the present day. This three-volume work represents a leading reference resource for Asian American studies that gives students, researchers, librarians, teachers, and other interested readers the ability to easily locate accurate, up-to-date information about Asian ethnic groups, historical and contemporary events, important policies, and notable individuals. Written by leading scholars in their fields of expertise and authorities in diverse professions, the entries devote attention to diverse Asian and Pacific Islander American groups as well as the roles of women, distinct socioeconomic classes, Asian American political and social movements, and race relations involving Asian Americans.

**New York Magazine** ,1996-05-06 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

*Constructing the Literary Self* Patsy J. Daniels,2014-06-02 In the twentieth century, as previously excluded groups, including ethnic minorities, women, the disabled, and the differently gendered, gained a voice in society, group identity also changed and new definitions became necessary. Whether through their group affiliations or in spite of these affiliations, many individuals sought a new definition of themselves. As can be expected, much literature explores these changes and depicts the quest for new definitions and the search for individuality in the light of new definitions. Construction or definition of the self was once available only to the elite, and the freedom of some to define their identity was sacrificed so that others could make their own self-definitions; this practice can be found throughout much of history. This volume is about that kind of oppression and various strategies of escaping from oppression as depicted in serious literature. Its thirteen essays, all by recognized scholars, are divided into five categories: Race, Gender, and the Self; Assimilation and the Self; Black Males and the Self; Female Sexuality and the Self; and The Family and the Self.
