Italian Sign Language from a Cognitive and Socio-semiotic Perspective Virginia Volterra, Maria Roccaforte, Alessio Di Renzo, Sabina Fontana, 2022-09-01 This volume reveals new insights on the faculty of language. By proposing a new approach in the analysis and description of Italian Sign Language (LIS), that can be extended also to other sign languages, this book also enlightens some aspects of spoken languages, which were often overlooked in the past and only recently have been brought to the fore and described. First, the study of face-to-face communication leads to a revision of the traditional dichotomy between linguistic and enacted, to develop a new approach to embodied language (Kendon, 2004). Second, all structures of language take on a sociolinguistic and pragmatic meaning, as proposed by cognitive semantics, which considers it impossible to trace a separation between purely linguistic and extralinguistic knowledge. Finally, if speech from the point of view of its materiality is variable, fragile, and non-segmentable (i.e. not systematically discrete), also signs are not always segmentable into discrete, invariable and meaningless units. This then calls into question some of the properties traditionally associated with human languages in general, notably that of 'duality of patterning'. These are only some of the main issues you will find in this volume that has no parallel both in sign and in spoken languages linguistic research.

Only Prostitutes Marry in May Dacia Maraini, 1994 Four plays by Dacia Maraini, one of Italy's foremost writers, that present her unabashed views on the relations between women & power, women & men: Mary Stuart, Dialogue Between a Prostitute & Her Client, Dreams of Clytemnestra, and Crime at the Tennis.

Migrant Cartographies Sandra Ponzanesi, Daniela Merolla, 2005-08-04 In recent years, Europe has had to constantly rethink and redefine its attitude toward new flows of immigrations. Issues of boundaries and identity have been integral to this reflection. Through a magnificent collection of essays, *Migrant Cartographies* examines both sites and conflicts and the way in which forms of belonging and identity have been reinvented. With careful analysis and exceptional insight, this volume explores the most recent literature on migration as seen from different European viewpoints. This book fills a conspicuous void in migration literature, as there are no comprehensive books on migrant literatures in Europe that address the full range of complexities of colonial legacies and linguistic productions.
