American Political Cartoons Sandy Northrop,2017-07-05 From Benjamin Franklin's drawing of the first American political cartoon in 1754 to contemporary cartoonists' blistering attacks on George W. Bush and initial love-affair with Barack Obama, editorial cartoons have been a part of American journalism and politics. American Political Cartoons chronicles the nation's highs and lows in an extensive collection of cartoons that span the entire history of American political cartooning. Good cartoons hit you primitively and emotionally, said cartoonist Doug Marlette. A cartoon is a frontal attack, a slam dunk, a cluster bomb. Most cartoonists pride themselves on attacking honestly, if ruthlessly. American Political Cartoons recounts many direct hits, recalling the discomfort of the cartoons' targets?and the delight of their readers. Through skillful combination of pictures and words, cartoonists galvanize public opinion for or against their subjects. In the process they have revealed truths about us and our democratic system that have been both embarrassing and ennobling. Stephen Hess and Sandy Northrop note that not all cartoonists have worn white hats. Many have perpetuated demeaning ethnic stereotypes, slandered honest politicians, and oversimplified complex issues.

American Republic to 1877, Interpreting Political Cartoons McGraw-Hill Staff,2002-06 Contains 36 reproducible activity pages, each including one political cartoon, short summary of the issue being addressed, and questions for analysis and critical thinking.

20th Century: as it was Lived S3 Wb Na ,2007

Mussolini and Italian Fascism Hamish Macdonald,1999 Students will benefit from the provision of a structured route through the A-Level History process that is clearly explained. The books maintain focus on narrative in a readable style, while presenting additional topical information alongside. The approach concentrates on providing students with the essential information, keeping their attention on important and key issues throughout. The series is extremely cost-effective and can be used alongside any main A-Level topic book or resource. Teachers can use Pathfinder as a multi-role resource that can be used in as many ways as they determine: as an introduction at the start of the course, as a guide throughout a topic, or as a revision guide.

League of Nations Magazine ,1917

Historicizing Modernists Matthew Feldman,Anna Svendsen,Erik Tonning,2021-06-17 Focussing upon both canonical

figures such as Woolf, Eliot, Pound, and Stein and emergent themes such as Christian modernism, intermedial modernism, queer Harlem Renaissance, this volume brings together previously unseen materials, from various archives, to bear upon cutting-edge interpretation of modernism. It provides an overview of approaches to modernism via the employment of various types of primary source material: correspondence, manuscripts and drafts, memoirs and production notes, reading notes and marginalia, and all manner of useful contextualising sources like news reports or judicial records. While having much to say to literary criticism more broadly, this volume is closely focused upon key modernist figures and emergent themes in light of the discipline's 'archival turn' – termed in a unifying introduction 'achivalism'. An essential ingredient separating the above, recent tendency from a much older and better-established new historicism, in modernist studies at least, is that 'the literary canon' remains an important starting point. Whereas new historicism 'is interested in history as represented and recorded in written documents' and tends toward a 'parallel study of literature and non-literary texts', archival criticism tends toward recognised, oftentimes canonical or critically-lauded, writers, presented in Part 1. Sidestepping the vicissitudes of canon formation, manuscript scholars tend to gravitate toward leading modernist authors: James Joyce, Ezra Pound, Virginia Woolf, Gertrude Stein, T.S. Eliot and Samuel Beckett. Part of the reason is obvious: known authors frequently leave behind sizeable literary estates, which are then acquired by research centres. A second section then applies the same empirical methodology to key or emergent themes in the study of modernism, including queer modernism; spatial modernism; little magazines (and online finding aids structuring them); and the role of faith and/or emotions in the construction of 'modernism' as we know it.
