*The Encyclopedia of Out of Place Artifacts* Martin K. Ettington, 2022-07-21 Out of Place Artifacts is a fascinating subject. There are too many of these unusual objects for them to be fakes. I've already written several books on this subject including "Strange Objects Which Should Not Exist", "More Out of Place Objects", and "A 300 Million Year Old Civilization Existed on Earth". In this book I've compiled everything I could find out about these unusual finds from my prior three books and additional research. 54 artifacts are covered in detail. I've included all of this information except that specifically related to Aliens and UFOs since that information is in my books on those topics. The information here is presented in five parts: Part A: Artifacts Found in Historical Times Part B: Very Ancient Objects to Millions of Years Old Part C: A Civilization 300 Million Years Ago Part D: Human Footprints in Rock Part E: Artifacts of Undetermined Ages I hope you find all of this information as interesting as I do since it changes our understanding of the history of our planet in incredible ways.

10 Out Of Place Artifacts Discovery Roger Marchiony, 2021-04-29 An out-of-place artifact (OOPart) is an artifact of historical, archaeological, or paleontological interest found in an unusual context, which challenges conventional historical chronology by its presence in that context. This book will cover 10 OOPARTS. OOPARTS are challenging our views of history, science and established theories. If our history happened just as they say it did, then how are we to explain artifacts that are genuine but that do not fit in with the chronology or timeline that we have built?

Excerpt: The Antikythera mechanism ( -i-ki- or -i-- r ) is an ancient mechanical computer designed to calculate astronomical positions. It was recovered in 1900-1901 from the Antikythera wreck. Its significance and complexity were not understood until decades later. Its time of construction is now estimated between 150 and 100 BC. Technological artifacts of similar complexity and workmanship did not reappear until the 14th century, when mechanical astronomical clocks were built in Europe. Jacques-Yves Cousteau visited the wreck for the last time in 1978, but found no additional remains of the Antikythera mechanism. Professor Michael Edmunds of Cardiff University who led the most recent study of the mechanism said: This device is just extraordinary, the only thing of its kind. The design is beautiful, the astronomy is exactly right. The way the mechanics are designed just makes your jaw drop. Whoever has done this has done it extremely carefully ... in terms of historic and scarcity value, I have to regard this mechanism as being more valuable than the Mona Lisa. The device is displayed at the National Archaeological Museum of Athens, accompanied by a reconstruction made and...

**The October Scenario** Kevin D. Randle, 1988 Written by a field investigator for the Aerial Phenomena Research Organization, this classic is an astonishing account of the many UFO encounters experienced by hundreds of individuals in October of 1973. This comprehensive work describes abductions by UFOs, and suggests a theory behind the sightings. Pat Roach was asleep with her children in their house in Utah when she met them. Susan Ramstead was on her way to a business meeting in a Midwestern city. Dionisio Llanca was on an overnight trip in Argentina. Charles Hickson and Calvin Parker were fishing in Mississippi. Leigh Proctor was on her way home from vacation when it happened. It was during October of 1973 that all of these people shared an experience. And it was during October of 1973 that hundreds of others had the experience of a lifetime. It is unfortunate that no one realized what was happening. We can only hope that next time we'll be ready. Tremendous research...New insights into UFO abductions. Warren Smith - UFO Mysteries This is a theory that certainly deserves consideration. UFO flaps occur with cyclical consistency. Ralph Blum - Beyond Earth: Man's contact with UFOs Randle presents his controversial theory with conviction and supplements it with well documented cases. Brad Steiger - The Fellowship
