**Here Comes the Sign: The Semiotics of Popular Music** Dario Martinelli,

Integrating Digital Technology in Education R. Martin Reardon, Jack Leonard, 2019-05-01 This fourth volume in the Current Perspectives on School/University/Community Research series brings together the perspectives of authors who are deeply committed to the integration of digital technology with teaching and learning. Authors were invited to discuss either a completed project, a work-in-progress, or a theoretical approach which aligned with one of the trends highlighted by the New Media Consortium's NMC/CoSN Horizon Report: 2017 K-12 Edition, or to consider how the confluence of interest and action (Thompson, Martinez, Clinton, & Díaz, 2017) among school-university-community collaborative partners in the digital technology in education space resulted in improved outcomes for all—where “all” is broadly conceived and consists of the primary beneficiaries (the students) as well as the providers of the educational opportunities and various subsets of the community in which the integrative endeavors are enacted. The chapters in this volume are grouped into four sections: Section 1 includes two chapters that focus on computational thinking/coding in the arts (music and visual arts); Section 2 includes three chapters that focus on the instructor in the classroom, preservice teacher preparation, and pedagogy; Section 3 includes four chapters that focus on building the academic proficiency of students; and Section 4 includes two chapters that focus on the design and benefits of school-university-community collaboration.

**Black British Gospel Music** Dulcie A. Dixon McKenzie, Pauline E. Muir, Monique M. Ingalls, 2024-06-04 Black British Gospel Music is a dynamic and multifaceted musical practice, a diasporic river rooted in the experiences of Black British Christian communities. This book examines gospel music in Britain in both historical and contemporary perspectives, demonstrating the importance of this vital genre to scholars across disciplines. Drawing on a plurality of voices, the book examines the diverse streams that contribute to and flow out of this significant genre. Gospel can be heard resonating within a diverse array of Christian worship spaces; as a form of community music-making in school halls; and as a foundation for ‘secular’ British popular music, including R&B, hip hop and grime.

**The Topos of Music III: Gestures** Guerino Mazzola, René Guitart, Jocelyn Ho, Alex Lubet, Maria Mannone, Matt Rahaim, Florian Thalmann, 2018-03-28 This is the third volume of the second edition of the now classic book “The Topos of Music”. The authors present gesture theory, including a gesture philosophy for music, the mathematics of gestures, concept

architectures and software for musical gesture theory, the multiverse perspective which reveals the relationship between gesture theory and the string theory in theoretical physics, and applications of gesture theory to a number of musical themes, including counterpoint, modulation theory, free jazz, Hindustani music, and vocal gestures.

*On The Meta-category Of Chinese Music Aesthetics* Sai Yang, 2021-07-02 This book opens with the emergence and development of the discipline of aesthetics in western countries, specifically the history of Western Music Aesthetics, to study and delve into the development of Chinese Music Aesthetics. The book provides a clear timeline throughout the writing — from the history of Chinese Music Aesthetics, to the construction of a theoretical framework, and the intersections and conversations between Western and Chinese Music Aesthetics. This academic piece is fundamentally consistent with the developing field of Chinese philosophical and literary research. This book also discusses important music aesthetic categories of Confucianism, Taoism, Mohism, and metaphysics, and uses critical thinking to analyse the relationship between these categories and relevant schools of thought, reflecting the author's academic vision and thought process.

**Kod?ly Today** M?che?l Houlahan, Philip Tacka, 2008-06-26 In *Kod?ly Today*, M?che?l Houlahan and Philip Tacka offer an expertly-researched, thorough, and--most importantly--practical approach to transforming curriculum goals into tangible, achievable musical objectives and effective lesson plans. Their model--grounded in the latest research in music perception and cognition--outlines the concrete practices behind constructing effective teaching portfolios, selecting engaging music repertoire for the classroom, and teaching musicianship skills successfully to elementary students of all degrees of proficiency. Addressing the most important questions in creating and teaching Kod?ly-based programs, Houlahan and Tacka write through a practical lens, presenting a clear picture of how the teaching and learning processes go hand-in-hand. Their innovative approach was designed through a close, six-year collaboration between music instructors and researchers, and offers teachers an easily-followed, step-by-step roadmap for developing students' musical understanding and metacognition skills. A comprehensive resource in the realm of elementary music education, this book is a valuable reference for all in-service music educators, music supervisors, and students and instructors in music education.
