**Simon MacDowall**

*Catalaunian Fields AD 451* Simon MacDowall, 2015-09-20 The battle of the Catalaunian Fields saw two massive, powerful empires square up in a conflict that was to shape the course of Eurasian history forever. For despite the Roman victory, the Roman Empire would not survive for more than 15 years following the battle, whilst the Huns, shattered and demoralized, would meet their downfall against a coalition of German tribes soon after. This book, using revealing bird's-eye-views of the plains of Champagne and detailed illustrations of the opposing warriors in the midst of desperate combat, describes the fighting at the Catalaunian Fields and reveals the broader campaign of Hunnic incursion that led up to it. Drawing on the latest research, Simon MacDowall reveals the shocking intensity and appalling casualties of the battle, whilst assessing the wider significance and consequences of the campaign.

**The Battle of the Catalaunian Fields AD 451** Evan Michael Schultheis, 2019-01-30 A reassessment of the famous fifth-century clash between Hun and Roman forces: "An excellent job of research with original documents." —The Past in Review This book reconsiders the evidence for Attila the Hun's most famous battle, the climax of his invasion of the Western Roman Empire that had reached as far as Orleans in France. Traditionally considered one of the pivotal battles in European history, saving the West from conquest by the Huns, the Catalaunian Fields is here revealed to be significant but less immediately decisive than claimed. This new study exposes oversimplified views of Attila's army, which was a sophisticated and complex all-arms force, drawn from the Huns and their many allies and subjects. The 'Roman' forces, largely consisting of Visigoth and Alan allies, are also analyzed in detail. The author, a reenactor of the period, describes the motives and tactics of both sides. Drawing on the latest historiography and research of the primary sources, and utilizing Roman military manuals, Evan Schultheis offers a completely new tactical analysis of the battle and a drastic reconsideration of Hun warfare, the Roman use of federates, and the ethnography of the Germanic peoples who fought for either side. The result is a fresh and thorough case study of battle in the fifth century. Includes maps and illustrations

*The Battle of Vouillé, 507 CE* Ralph W. Mathisen, Danuta Shanzer, 2012-07-04 This volume highlights the heretofore largely neglected Battle of Vouillé in 507 CE, when the Frankish King Clovis defeated Alaric II, the King of the Visigoths. Clovis' victory proved a crucial step in the expulsion of the Visigoths from Francia into Spain, thereby leaving Gaul largely to the Franks. It was arguably in the wake of Vouillé that Gaul became Francia, and that "France began." The editors have

united an international team of experts on Late Antiquity and the Merovingian Kingdoms to reexamine the battle from multiple as well as interdisciplinary perspectives. The contributions address questions of military strategy, geographical location, archaeological footprint, political background, religious propaganda, consequences (both in Francia and in Italy), and significance. There is a strong focus on the close reading of primary source-material, both textual and material, secular and theological.
