## Selco Begovic

*The Dark Secrets of SHTF Survival* Selco Begovic, 2019-01-13 This is not a guide that will tell you step-by-step HOW to survive. This is a reality check that will tell you that everything you have expected and planned for is probably wrong. Selco is a household name in prepping and survival circles. He survived the Balkan War in a city with no power, no running water, and no supplies. For a year, he and his family fought every single day for bare subsistence. Over the years since the war, Selco has written nearly a quarter of a million words of memories, articles, and advice. This book is a collection of his darkest moments. The first thing you must do when disaster strikes is to adapt quickly to the new rules that apply when the SHTF. And to do that, you need to know what it's like so you won't be shocked...frozen...paralyzed by the atrocities taking place right in front of you. This book is Selco's version of tough love. There's nothing watered down about it. It is a collection of stories, memories, and articles he has documented over the past decade. He has revisited those horrible days to give us the reality check we must have. It's a glimpse into the day-to-day events of the SHTF. It is smelly. It is dirty. It's dark and brutal. It's REAL. It is all the stuff that Selco rarely talks about because the memories are so ugly. WARNING: This book contains graphic content. It truly gives you the terrifying reality of the SHTF and you need to know these things. in order to survive if you ever find yourself in the chaos and mayhem of an apocalyptic situation. It is not a cheery, optimistic overview of the SHTF. It's dark, brutal, and shocking. It is the real, gritty truth about what it's like to live in a world where everyone has become something other than an ordinary human. Where death and fear are constantly near. Where evil comes out to play. Don't say we didn't warn you. PLEASE NOTE: This book is written by a person from Bosnia. English is not Selco's first language. The book is lightly edited for clarity but these stories are his and should be told in his own words.

**Critical Theory and the Authoritarian Personality** Geoff M. Boucher, 2025-01-31 The worldwide resurgence of authoritarianism has sparked renewed interest in the Frankfurt School theory of the authoritarian personality, not as a topic of academic debate but as an urgent political factor. Critical Theory and the Authoritarian Personality brings Theodor Adorno's critique up-to-date in light of new forms of authoritarian politics, recent kinds of authoritarian propaganda and current findings about authoritarian personalities. Drawing on the work of Slavoj Žižek and the psychoanalysis of Jacques Lacan, this is the first sustained application of psychoanalytic theory to the problem of the authoritarian personality since the classical work of the Frankfurt School. It explores a pressing problem—the resurgence of the radical Right—and proposes new

solutions, grounded in the idea of an affective approach to authoritarian politics as something based on transgressive fantasies and political anxieties. Throughout, the book illustrates its theoretical claims with reference to new kinds of authoritarian literature, which today forms an important part of right-wing propaganda.

SHTF Survival Stories Selco Begovic, 2020-02-03 There are many books out there on all the different aspects of preparedness and survival that can provide you with information, checklists, and theoretical solutions to potential problems. But no matter how much you read or how well-researched the books you choose are, there's only so much you can take away from these tomes. Getting your information from someone who has survived a sh\*t hit the fan crisis will take your preparedness to an entirely different level. Meet Selco, a legend in the preparedness world. He survived in a city that was under siege for more than a year. He had no power, no running water, no stores for supplies, and every day, he ran the risk of meeting a violent death, whether by shells, sniper fire, or a person intent on hurting others. This book is a collection of memories from the darkest days of the Balkan War, where each moment could have been his last. This isn't a cheerful and uplifting guide to survival. There's no misplaced optimism. There's only Selco, the darkness he faced, and the grim reality of an SHTF scenario most of us can't even fathom. But if you can grasp it all before it happens, you'll be much further ahead than those who are frozen in shock.\*\*\*Please note that Selco's first language is not English. These stories have been lightly edited for clarity, but they still retain the accent.

**SHTF Survival Boot Camp** Toby Cown, Selco Begovic, 2020-11-05 The year 2020 has rendered in-person education unachievable in many situations. Going off to take a survival course in Europe is nearly impossible. This doesn't lessen the need for this type of course. In fact, learning about SHTF survival is more important than ever. The dangers are more imminent than ever. So, Selco has opted to bring the course to us. In this book, you can learn the survival skills that kept Selco alive during the wars in the Balkans in a city under siege. Selco fought to survive in his urban setting against marauding gangs, he evaded sniper fire from the mountains above the city, and he scrambled for the limited resources available. He shares the secrets that allowed him to survive in the course for which this is a textbook. You can learn about urban survival, wilderness survival, what to do before the SHTF, and how to prepare for all of it. Learn the skills he staked his life on. It may not be long before we're doing the same thing. While most of us won't be getting to Bosnia anytime soon to learn from Selco directly, this guide is the next best thing to an in-person experience.

*Prepping for the Day the SHTF: a Complete Bug-Out and Survival Plan for Life After Doomsday* Ken Benton, 2013-05-01 Bad times may be coming. We all know that, right? But what are we doing about it to prepare? What can we do? We are not talking about localized natural disasters, which are temporary situations and relatively easy to recover from. These bad times, which may very well loom on the horizon as we speak, could render all the money in our bank accounts worthless. When the trucks stop rolling, there is no more food. Even if you have some stored up, how long will it last? The cities figure to become a pretty ugly place after a severe SHTF event. They will be unsafe, and crowds are extremely bad for survival situations. Rural homesteaders who know how to produce their own food and live self-sufficiently may suddenly find they are the new upper class in whatever is left of society. This book is for you city slickers who want to establish a reasonably secure bug-out and survival plan for your family now, while the grid is still up. When the S does HTF, you will have a place to go live and a way to get there, quickly and safely. It involves investing some of your soon-to-be-worthless dollars in a plot of rural land out in the sticks, and then getting it ready for homesteading in a manner that will not attract squatters. Allow Ken Benton to show you how to prepare a proper survival retreat. He will walk you through the steps of finding land, establishing a fresh water source, preparing for cabin-building, establishing temporary shelter, getting a head start on food production, stocking up on essentials, and protecting it all from both the elements and the eyes of anyone passing by. Ken will help you prep for bug-out day, and provide important tips for travelling after a SHTF event - giving you the best chance of arriving at your retreat intact. He will teach you how to then live off the land and be a happy, secure, rural survivor in a post-apocalyptic society.
